

General Assembly

Distr.: General
27 August 2025

Original: English

Eightieth session

Item 134 (a) of the provisional agenda*

**Financial reports and audited financial statements,
and reports of the Board of Auditors: United Nations**

Implementation of the recommendations of the Board of Auditors contained in its report for the year ended 31 December 2024 on the United Nations

Report of the Secretary-General

Summary

The present report provides information in response to the recommendations of the Board of Auditors as contained in its report for the year ended 31 December 2024 on the United Nations ([A/80/5 \(Vol. I\)](#), chap. II). The report is submitted in accordance with paragraph 7 of General Assembly resolution [48/216 B](#), in which the Secretary-General was requested to report to the Assembly, at the same time as the Board submitted its recommendations to the Assembly, on measures taken or to be taken to implement those recommendations.

The present report provides the Administration's comments and information on the status of implementation, the department responsible, the estimated completion date and the priority of each recommendation contained in the current report of the Board. In addition, the present report contains updated information on the status of implementation of the recommendations of the Board for prior periods that were reported by the Board as not having been fully implemented in the annexes to its report, including those relating to the Umoja system.

* [A/80/150](#).

I. Introduction

1. In paragraph 7 of its resolution [48/216 B](#), the General Assembly requested the Secretary-General to report to it on the measures that would be taken to implement the recommendations of the Board of Auditors at the same time as the reports of the Board were submitted to the Assembly. Accordingly, the present report is submitted in response to the recommendations of the Board contained in its report for the year ended 31 December 2024 on the United Nations ([A/80/5 \(Vol. I\)](#), chap. II).

2. In the preparation of the present report, account was taken of the provisions of the following documents:

(a) General Assembly resolution [48/216 B](#), in particular its paragraph 8, in which the Assembly requested the Secretary-General to draw attention in his reports to the recommendations of the Board that would require action by the Assembly;

(b) Resolution [52/212 B](#), in particular its paragraphs 3 to 5, and the note by the Secretary-General transmitting the proposals of the Board for improving the implementation of its recommendations approved by the Assembly ([A/52/753](#), annex);

(c) Resolution [79/245 A](#), in particular its paragraph 11, in which the Assembly reiterated its request to the Secretary-General to ensure full implementation of the recommendations of the Board and the related recommendations of the Advisory Committee on Administrative and Budgetary Questions in a prompt and timely manner, to continue to hold programme managers accountable for the non-implementation of recommendations and to effectively address the root causes of the problems highlighted by the Board; its paragraph 12, in which the Assembly also reiterated its request to the Secretary-General to provide in his reports on the implementation of the recommendations of the Board a full explanation for the delays in the implementation of the recommendations of the Board, in particular those recommendations not yet fully implemented that were two or more years old; and its paragraph 13, in which the Assembly further reiterated its request to the Secretary-General to indicate in future reports an expected time frame for the implementation of the recommendations of the Board, as well as the priorities for their implementation and the office holders to be held accountable.

3. With regard to prioritization, it is noted that the Board categorizes the most important recommendations as “main” recommendations, of which the implementation will be given a high priority.

4. The Administration’s comments were provided on all the recommendations, and most of them have been reflected in the Board’s report. In accordance with paragraph 12 of resolution [79/245 A](#), additional information has been provided on all recommendations corresponding to prior financial periods that the Board considered not to have been fully implemented, including those relating to the Umoja system.

5. Section II below contains the information requested by the General Assembly on the implementation of the recommendations contained in the reports of the Board on the United Nations. Section II.A contains the Administration’s comments regarding specific findings by the Board. Section II.B provides information on the implementation of the recommendations contained in the Board’s report for the year ended 31 December 2024 and section II.C provides information on the implementation of the recommendations contained in the Board’s reports for prior financial periods that the Board considered not to have been fully implemented.

6. Section III provides information on the implementation of the prior periods recommendations that the Board considered not to have been fully implemented relating to the Umoja system.

II. United Nations

A. Administration's comments regarding specific findings by the Board of Auditors

Asset management

Finalization of the preliminary asset disposal plan

7. In paragraph 194 of its report, the Board stated that the United Nations Assistance Mission for Iraq (UNAMI) should expedite the inclusion of manually prepared disposal plans for real estate assets and consumables and supplies inventory in the preliminary asset disposal plan in order to fully reflect the situation accurately.

8. The Administration reiterates that the preliminary asset disposal plan in Umoja is configured only to track serialized equipment. It does not include real estate and consumable items that do not have an equipment master record. According to section 4 of the administrative instruction on the management of property ([ST/AI/2015/4](#)), "expendable property" is tangible property that is consumed in use, is transformed or absorbed into any substance during use or otherwise loses its identity when in use. UNAMI is expected to develop an internal plan for the disposal of expendable items.

Human resources management

Delay in the new lease contract and renovation project of the Two United Nations Plaza (DC-2) building may negatively affect the achievement of the envisaged rental savings

9. In paragraph 267 of its report, the Board reflected the Administration's clarification that more favourable rental conditions were secured at a base rate of \$51 per square foot, compared with the estimated \$70 per square foot market rate during the prolonged negotiation.

10. The Board omitted the fact that, from 1 April 2023 until the new lease on DC-2 became effective in April 2025, no rent was paid for the DC-1 Building, saving the Organization \$17.4 million, while the rent for DC-2 was also maintained at the existing rate. The Administration has developed an expedited implementation plan to ensure that both buildings are vacated by their respective lease expiration dates and therefore does not expect a negative impact on the envisaged rental savings.

Travel management

Overdue travel expense reporting leads to delays in reconciliation of travel expenses

11. In paragraph 288 of its report, the Board noted that, as at 30 April 2025, there were 1.75 million overdue expense reports in Umoja, 58.3 per cent of which were from trips initiated before 2022.

12. The Administration wishes to clarify that the figure reflected in paragraph 288 of the Board's report denotes the entire population, in other words, all expense reports processed rather than overdue expense reports. The number of trips for which expense reports were pending was approximately 29,000, not 1.75 million. This equates to around 1.7 per cent of all trips raised. Moreover, the expense reports pending in the system were a type of expense report for which no advance was paid. The majority of those trips were initiated to record air ticket-related entries, resulting in no financial implications for the Organization.

B. Implementation of the recommendations contained in the report of the Board of Auditors on the United Nations for the year ended 31 December 2024¹

Overview

13. Tables 1 and 2 provide a summary of the status of implementation of recommendations as of August 2025.

14. Table 1 shows the status of the 20 main recommendations of the Board, of which closure of 1 has been requested and 19 are under implementation. Of the 19 main recommendations that are under implementation, 4 are scheduled to be implemented in 2025, 14 in 2026 and 1 in 2027.

Table 1

Status of implementation of main recommendations

(Number of recommendations)

Detailed information on implementation status

16. In paragraph 12 of its report, the Board recommended that the Administration review all recommendations for which target implementation dates have changed and report on the reasons and action that will be taken in the next report of the Secretary-General on the status of implementation of the Board's recommendations.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Closure requested

Priority: High

Target date: Not applicable

17. The Administration requested the relevant United Nations entities to provide updates outlining the reasons for delays and the action being taken to expedite the implementation of the Board's outstanding recommendations. That information has been included in the present report. The Administration considers this recommendation to be implemented and requests its closure by the Board.

18. In paragraph 33 of its report, the Board recommended that the Administration carry out a pilot study, to the extent possible, within funds available and implement the mandate of multilingualism by concentrating on the most critical deliverables to ensure that its mandate for creating comprehensive communication outputs in multiple languages can be fulfilled.

Department responsible: Department of Global Communications

Status: Under implementation

Priority: Medium

Target date: Fourth quarter of 2026

19. The Department of Global Communications is committed to fulfilling this important mandate and is actively exploring viable approaches for conducting and completing the pilot study. This includes consideration of artificial intelligence solutions, subject to the availability of funding. Upon completion of the study, the Department will report thereon to the General Assembly.

20. In paragraph 38 of its report, the Board recommended that the Administration formalize a process of allocation of priorities at the United

Nations Office at Vienna, in consultation with its services chiefs, to address the United Nations liquidity challenges.

Department responsible: United Nations Office at Vienna

Status: Under implementation

Priority: Medium

Target date: Fourth quarter of 2025

21. Since 2023, the United Nations Office at Vienna has been managing liquidity constraints related to regular budget funding. In this regard, a structured process for prioritizing allocations has been developed, which includes continuous monitoring and adjustment of priorities based on the evolving financial situation and inputs from substantive offices, the Director-General of the United Nations Office at Vienna and the Office of the Controller. While the prioritization mechanism is currently operational, it will be formalized and documented accordingly.

22. In paragraph 44 of its report, the Board recommended that the Administration strengthen its organizational resilience at the United Nations Office at Geneva by launching a comprehensive structural review aimed at identifying critical positions and strategic functions, prioritizing essential tasks in a context of constrained resources and anticipating the management of numerous upcoming staff departures.

Department responsible: United Nations Office at Geneva

Status: Under implementation

Priority: Medium

Target date: Fourth quarter of 2025

23. The United Nations Office at Geneva has already initiated work in preparation for its 2026 budget submission. As part of this process, the Office is actively assessing the impact of proposed post abolitions and continues to refine its approach to resource prioritization. This includes defining the minimum level of administrative services required to implement the Office's mandate effectively, and determining the corresponding staffing and resources needed to sustain essential functions.

24. In paragraph 64 of its report, the Board recommended that UNAMI follow the instructions from United Nations Headquarters, prepare an action plan and expedite the clean-up process for the cumulative fund balance in the cost-recovery fund during the transition and liquidation process.

Department responsible: UNAMI

Status: Closure requested

Priority: Medium

Target date: Not applicable

25. UNAMI is implementing cost-recovery measures in full compliance with applicable guidelines, approved cost plans and the Financial Regulations and Rules of the United Nations. The Mission has operationalized its transition plan and maintains full oversight of the cost-recovery fund. All key elements of the

recommendation have been addressed. In view of the structured implementation, strong governance framework and continued compliance, the Mission requests the closure of this recommendation by the Board.

26. In paragraph 75 of its report, the Board recommended that the Administration ensure that the Office of Information and Communications Technology expedites the new review of the full category of services and continues to enhance oversight to match revenue against expenses at the service or functional level, as appropriate, to ensure that the full cost of each category can be measured realistically and objectively.

Department responsible: Office of Information and Communications Technology

Status: Under implementation

Priority: Medium

Target date: Fourth quarter of 2025

27. The Office of Information and Communications Technology has completed a comprehensive review of its core services and associated costs, with the primary objectives of: (a) determining the cost of services provided to other United Nations Secretariat entities; (b) establishing a transparent pricing model for each service; and (c) updating service rates. This exercise has resulted in a more accurate and sustainable financial framework that reflects current operational realities and is aligned with best practices as outlined in the cost-recovery policy and guidelines.

28. Three core service rates were approved by the Controller: (a) the United Nations Headquarters core services bundle at \$1,156 per user; (b) the peacekeeping core rate at \$667 per user; and (c) the non-headquarters/non-field core bundle at \$320 per user, applicable to offices away from Headquarters, economic commissions and similar entities. In addition, a rate of \$62 for IP telephony services for New York-based users was approved in February 2025. Legacy rates for other on-demand services remain in effect until the newly proposed rates are formally approved.

29. In paragraph 95 of its report, the Board recommended that the Administration add the net asset balance, including the required target reserve balance, of the category 62 funds in the current internal control dashboard to further enhance the monitoring of the management of extrabudgetary resources.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: High

Target date: Fourth quarter of 2025

30. The Administration has initiated the implementation of the Board's recommendation to incorporate both the net asset balance and the required target reserve balance of the category 62 funds into the internal control dashboard. Enhancements have been designed to integrate these elements with the objective of further strengthening the monitoring and management of extrabudgetary resources.

31. In paragraph 103 of its report, the Board recommended that the Administration expedite the clearing of outstanding pending commitments and

cash balances of closed country-based pooled funds to improve the performance of the funds.

Department responsible: Office for the Coordination of Humanitarian Affairs

Status: Under implementation

Priority: High

Target date: Fourth quarter of 2025

32. Of the 13 dormant accounts identified for closure, 10 have been closed successfully. The remaining three accounts are in the final stages of the closure process and are expected to be fully closed by the end of 2025.

33. In paragraph 110 of its report, the Board recommended that the Administration formulate definitive operating reserve guidelines for trust funds and enhance the management of operating reserves accordingly.

Department responsible: Office for the Coordination of Humanitarian Affairs

Status: Under implementation

Priority: Medium

Target date: Fourth quarter of 2025

34. The Office for the Coordination of Humanitarian Affairs is developing guidelines that are aligned with the relevant financial policies of the Secretariat. The objective is to finalize and secure approval of the guidelines by senior management by the end of 2025.

35. In paragraph 133 of its report, the Board recommended that the Administration strengthen its role and capacity to provide guidance on construction projects of special political missions and expedite the development of appropriate thresholds, criteria and evaluation methods for construction projects that would be subject to the review of the Global Asset Management Policy Service.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: High

Target date: Fourth quarter of 2026

36. The Administration will establish clear criteria and thresholds to determine which construction projects should be subject to review by the Global Asset Management Policy Service. In parallel, measures will be identified to strengthen the Service's capacity to provide technical guidance and oversight for construction projects undertaken by special political missions.

37. In paragraph 142 of its report, the Board recommended that the Administration issue guidance on the preparation of multi-year construction project budget proposals to related entities to ensure that project implementation schedules are duly considered when requesting new budget appropriations.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: Medium

Target date: Fourth quarter of 2026

38. The Administration is working on comprehensive guidance for the development of multi-year budget proposals related to construction projects.

39. In paragraph 143 of its report, the Board recommended that the Administration further review the open fund balances under the construction fund (64CFA) related to completed projects and take appropriate action to clear the balances.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: Medium

Target date: Fourth quarter of 2025

40. The Administration is undertaking a review and reconciliation of open balances at the business area (entity) level. Upon completion of the review, the fund balance will be maintained at a level sufficient to cover both current and anticipated liabilities and provisions.

41. In paragraph 152 of its report, the Board recommended that the United Nations Integrated Office in Haiti (BINUH) reassess vehicle requirements in the light of operational demands in future.

Department responsible: BINUH

Status: Under implementation

Priority: Medium

Target date: Fourth quarter of 2026

42. As part of the budget process for the 2026 financial year, BINUH will reassess and rationalize its vehicle fleet and dispose of any surplus assets identified during the year.

43. In paragraph 167 of its report, the Board recommended that the Administration establish a lessons learned exchange process, with an emphasis on cost and schedule management, to help project owners to improve future project management by drawing from experiences in the cases examined by the Board.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: High

Target date: Fourth quarter of 2026

44. The Administration is in the process of establishing a mechanism to facilitate the dissemination of lessons learned from major construction projects across a broader range of entities.

45. In paragraph 178 of its report, the Board recommended that the Administration, in order to bring the project to successful completion, strengthen its project management and monitoring mechanisms and ensure strict adherence to all contractual conditions, including ensuring that the necessary approvals and permits are obtained and documented prior to the release of relevant payments.

Department responsible: Department of Global Communications

Status: Under implementation

Priority: Medium

Target date: Fourth quarter of 2026

46. In preparation for the next World Expo, the Department of Global Communications will prepare a profile for a project manager with the required expertise in source-to-acquire processes and contract management.

47. In paragraph 189 of its report, the Board recommended that, during the liquidation process, UNAMI, with appropriate guidance from Headquarters, remain committed to a structured and effective asset disposal process, incorporating lessons learned from the liquidation of the United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/ Islamic State in Iraq and the Levant to ensure optimal utilization and prevent unnecessary stockpiling.

Department responsible: UNAMI

Status: Closure requested

Priority: Medium

Target date: Not applicable

48. UNAMI has shared its inventory of 593 non-expendable Field Technology Section assets with the United Nations Logistics Base at Brindisi, Italy, and other United Nations missions. Based on the expression of interest by missions, asset transfers are proceeding in accordance with established procedures. The preliminary asset disposal plan, which is aligned with current asset disposal practices, has been submitted to the United Nations Logistics Base and issuance of the final asset disposal plan is pending. Remaining disposal activities, including shipments to the United Nations Logistics Base and other missions, are fully planned within the overarching disposal framework. These efforts are being carried out in close coordination with the United Nations Logistics Base, ensuring compliance with United Nations standards and operational continuity. The Mission has concluded a service-level agreement with the United Nations Logistics Base and a kick-off meeting for its implementation was held on 15 July 2025. Given the structured implementation plan, clear timelines and alignment with established procedures, the Mission considers this recommendation to be implemented and requests its closure by the Board.

49. In paragraph 197 of its report, the Board recommended that UNAMI finalize the preliminary asset disposal plan to ensure that all assets of UNAMI are included.

Department responsible: UNAMI
Status: Closure requested
Priority: Medium
Target date: Not applicable

50. UNAMI notes that the preliminary asset disposal plan pertains exclusively to serialized equipment with an equipment master record and does not encompass real estate assets. As real estate assets are not serialized, they fall outside the scope of the preliminary asset disposal plan. The management of real estate assets remains under the responsibility of the designated Real Estate Asset Manager at the Mission, in accordance with established procedures and corresponding Umoja records. To ensure transparency and enhance the accuracy of the asset disposal process, the Mission has recorded its real estate assets in Umoja. The Mission considers this recommendation to be implemented and requests its closure by the Board.

51. In paragraph 205 of its report, the Board recommended that UNAMI monitor and review the outstanding purchase orders before the end of its transition and drawdown in accordance with the field entity closure guide in order to ensure that all obligations conclude with the mandate.

Department responsible: UNAMI
Status: Closure requested
Priority: Medium
Target date: Not applicable

52. The Mission conducts monthly reviews and monitoring of all open purchase orders and associated obligations. As of August 2025, all outstanding commitments were aligned to support the procurement of goods and services required until the mission mandate concludes on 31 December 2025. The Mission considers this recommendation to be implemented and requests its closure by the Board.

53. In paragraph 220 of its report, the Board recommended that the Administration prioritize the implementation of the staff selection 2.0 programme by formulating the detailed implementation plans and timelines with a view to addressing the shortcomings in the current recruitment process.

Department responsible: Department of Management Strategy, Policy and Compliance
Status: Under implementation
Priority: High
Target date: Fourth quarter of 2026

54. The Administration notes that the full implementation of this recommendation requires resources that were requested for the 2026 budget, to be approved by the General Assembly. The timely and effective implementation of this recommendation also remains contingent on the availability of liquidity.

55. In paragraph 221 of its report, the Board recommended that the Administration take proactive measures targeting those entities that do not fulfil

the established targets in order to improve the representation of those underrepresented and unrepresented countries.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Target date:</i>	Fourth quarter of 2026

56. The Administration conducts annual monitoring of progress across the Secretariat. In 2024, a communication was issued to all entities to highlight the status of geographical representation and to reinforce the need to accelerate efforts to improve the representation of unrepresented and underrepresented Member States. The message emphasized the importance of addressing imbalances in geographical distribution, reiterated the expectations of the General Assembly and drew attention to retirement forecasts, which present a strategic opportunity to advance progress towards distribution targets. In addition, the Office of Human Resources is collaborating actively with entities on targeted outreach initiatives and providing guidance to support the sourcing of diverse talent from unrepresented and underrepresented Member States. In August 2025, the Assistant Secretary-General for Human Resources reached out to entities to seek their continued support in promoting equitable geographical distribution, while also encouraging efforts to strengthen internal capacity. Owing to the liquidity crisis, the Secretariat had to introduce cash conservation measures, which undermined the ability of entities to fill vacant positions. Unless the liquidity situation improves, the Administration's efforts to improve equitable geographical distribution through recruitment will be hampered.

57. In paragraph 234 of its report, the Board recommended that the Administration finalize the forthcoming policy provisions on the management of liens, indicating clearly the definitions, types, conditions, applicability and duration, among others, in order to ensure clarity, consistency and compliance.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Target date:</i>	Fourth quarter of 2025

58. The draft new administrative instruction on the administration of appointments is undergoing final review and is expected to be promulgated by the end of 2025.

59. In paragraph 248 of its report, the Board recommended that entities with United Nations Development Programme (UNDP)-administered staff develop their transition plans by 30 June 2026, as envisioned by the Administration, duly taking into consideration all the potential financial implications and the availability of the funding in this regard.

<i>Departments responsible:</i>	Office for the Coordination of Humanitarian Affairs and Office of the United Nations High Commissioner for Human Rights (OHCHR)
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Target date:</i>	Second quarter of 2026

60. The Office for the Coordination of Humanitarian Affairs is undergoing significant global restructuring and workforce reduction due to funding constraints. Nevertheless, the Office will develop a draft plan and timeline to transition UNDP-administered staff into the United Nations Secretariat. The implementation of this plan will follow a phased regional approach to mitigate risks and ensure operational continuity.

61. This recommendation is in line with phase II of the OHCHR project to transition staff from UNDP-administered contracts to Secretariat-administered contracts. Specifically, it calls for the conversion of all UNDP-administered service contractors working on behalf of OHCHR to individual contractor or consultancy contracts.

62. In paragraph 256 of its report, the Board recommended that the Administration refine the relevant Umoja modules to ensure that all attendance records and information relating to telecommuting within or outside the duty station are duly recorded therein and that enhanced tools are implemented to analyse and report on the telecommuting of staff with more detail.

<i>Departments responsible:</i>	Department of Operational Support and Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Target date:</i>	Fourth quarter of 2026

63. The Administration is already working on the development and implementation of a system-wide flexible working arrangements module for the administration of all flexible work arrangement types defined in [ST/SGB/2019/3](#), including telecommuting within and outside the duty station. This project has been under way since 2021; monitoring reports are part of the functional specifications of the project and will be accessible to all Secretariat entities for self-monitoring. Implementation of the solution is dependent on the outcome of production integration and user verification testing. Final testing and user preparation are now under way.

64. Aligning Umoja with the policy requirements under [ST/SGB/2019/3](#) took the Umoja system vendor two and a half years due to the complexity. The development took far longer than anticipated, thus delaying the implementation.

65. In paragraph 262 of its report, the Board recommended that the Administration remind entities to comply with the policy and guidance on telecommuting.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Closure requested
<i>Priority:</i>	Medium
<i>Target date:</i>	Not applicable

66. The Administration considers this recommendation to be implemented with the promulgation of the policy guideline (OHR/PG/2024/7) of 26 December 2024, which was issued on the basis of lessons learned since the issuance of [ST/SGB/2019/3](#) and [ST/IC/2019/15](#) on flexible working arrangements and their implementation in various contexts, including during the coronavirus disease (COVID-19) pandemic and the “next normal”. The policy guideline provides policy clarifications on key aspects of telecommuting under both flexible working arrangements and alternate working arrangements, including decision-making processes and impacts on benefits and allowances. For flexible working arrangements, and telecommuting in particular, the following elements are reiterated:

(a) Flexible working arrangements, including telecommuting outside the duty station, are voluntary agreements requiring prior approval and the establishment of a formal agreement between the staff member and the manager when the arrangement is of a continuous nature. No formal agreement is required in the case of a one-time ad hoc arrangement, though prior approval by the manager is still required;

(b) Flexible working arrangements are approved subject to exigencies of service and may be suspended or cancelled at any time by the manager due to exigencies of service or unsatisfactory performance;

(c) The policy guideline highlights the maximum duration of telecommuting outside the duty station that may be authorized, including the duration that a head of entity has the authority to approve, and that any approval to telecommute outside the duty station may be granted only for compelling personal reasons.

67. While the Board noted that requests to telecommute for over three days during the workweek accounted for 4.37 per cent of all telecommuting requests, the Administration is of the view that this does not provide a significant basis for keeping this recommendation open. The Administration has reminded entities to comply with the policy and guidance on telecommuting and will continue to stress to entities the need to do so. The Administration therefore requests the closure of this recommendation by the Board based on the policy guidance that has been issued.

68. In paragraph 271 of its report, the Board recommended that the Administration draw lessons from the lease renewal and renovation project of DC-2, work out more detailed plans, including a time frame, and closely monitor the implementation of the DC-2 renovation project, to ensure that the timely vacating of the Albano and FF Buildings is aimed at achieving the envisaged rental savings.

<i>Department responsible:</i>	Department of Operational Support
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Target date:</i>	Fourth quarter of 2027

69. The Administration is developing a detailed implementation plan to accelerate the project schedule and convert enough floors to flexible workplace in order to vacate the Albano and FF Buildings by their respective lease expiration dates of September and December 2027.

70. In paragraph 274 of its report, the Board recommended that the Administration issue guidance to ensure that the pre-appointment vetting procedure of senior leadership is enhanced by ensuring that newly appointed senior staff members have implemented the relevant recommendations from the Ethics Office upon assuming their United Nations duties and that the implementation of relevant recommendations should be verified by the Executive Office implementing the contract of the appointed senior staff member.

Department responsible: Executive Office of the Secretary-General

Status: Under implementation

Priority: Medium

Target date: Fourth quarter of 2025

71. The Executive Office of the Secretary-General, working in coordination with the Ethics Office, will prepare guidance for all heads of entities instructing them to verify that senior officials have implemented the recommendations issued by the Ethics Office as part of the pre-appointment vetting procedures.

72. In paragraph 284 of its report, the Board recommended that the Administration enhance Organization-wide guidance on trip cancellations and modifications and the recovery of costs, where applicable.

Department responsible: Department of Operational Support

Status: Under implementation

Priority: High

Target date: First quarter of 2026

73. The Administration will issue the “Know Before You Go” guidance to all travel processing officers on trip cancellations and other travel-related issues.

74. In paragraph 291 of its report, the Board recommended that the Administration remind all entities to expedite the clearance of overdue travel expense reports in Umoja to ensure the accurate and timely recording of travel-related expenditure.

Department responsible: Department of Operational Support

Status: Under implementation

Priority: Medium

Target date: First quarter of 2026

75. The Administration will remind all entities to expedite the clearance of overdue travel expense reports in Umoja and ensure the timely and proper recording of expense reports.

76. In paragraph 292 of its report, the Board recommended that the Administration address system deficiencies to ensure that advances for cancelled trips are accurately recorded and fully recovered, where applicable.

Department responsible: Department of Operational Support

Status: Under implementation

Priority: Medium

Target date: First quarter of 2026

77. The Administration will undertake further analysis and address system issues to ensure that expense reports are completed for cancelled trips.

78. In paragraph 299 of its report, the Board recommended that the Administration formulate an amendment to information circular [ST/IC/2019/16](#) to provide updated guidance on the arrangement of travel outside the Umoja travel module.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: Medium

Target date: Fourth quarter of 2026

79. The information circular will be reviewed, together with the revised administrative instruction on official travel, pending the decision of the General Assembly on the report of the Secretary-General on standards of accommodation for air travel ([A/79/628](#)), which was deferred to the eightieth session of the Assembly.

80. In paragraph 312 of its report, the Board recommended that the Administration assess the strategic initiatives within the professional services category by prioritizing, validating and refining them, as needed, while discontinuing those with low potential for success, and, specifically, when assessing the effectiveness of guidelines for roster use and secondary competition in audit services, evaluate their impact on the Organization's expenditure.

Department responsible: Department of Operational Support

Status: Under implementation

Priority: High

Target date: Third quarter of 2026

81. The Administration will continue its efforts to review and update the category strategy initiatives developed by the Office of Supply Chain Management. It will also conduct an analysis on the frequency with which work orders were awarded to the lowest-cost offer when conducting mini-bids, and whether mini-bids resulted in prices that were lower than the standard contract rates.

82. In paragraph 322 of its report, the Board recommended that the Administration encourage vendors that have been invited, but declined, to participate in solicitations to provide feedback on the reasons for declining to participate.

Department responsible: Department of Operational Support
Status: Under implementation
Priority: High
Target date: Second quarter of 2026

83. The Administration will continue to encourage feedback from those vendors who were invited to submit offers but chose not to participate in the solicitation process. Should a viable and cost-friendly solution be identified, whether through Ariba E-tendering or an alternative feedback collection mechanism, a formal communication will be issued to procurement officers in the Procurement Division providing guidance on implementing the new approach. In addition, procurement officers will be instructed to include in all future submissions to the Headquarters Committee on Contracts and/or case presentations a dedicated section outlining the efforts made to solicit feedback from non-responding vendors.

84. In paragraph 331 of its report, the Board recommended that the Administration provide guidance to end users to use hybrid vehicles, where possible, and strengthen discussions with suppliers of hybrid vehicles and conduct targeted outreach activities prior to the solicitation process, with the aim of increasing vendor participation and assessing market readiness to meet technical and geographical coverage requirements.

Department responsible: Department of Operational Support
Status: Under implementation
Priority: High
Target date: Third quarter of 2027

85. The Office of Supply Chain Management monitors client entities' demand plans and guides them on sourcing solutions through its supply chain planning framework. The framework provides demand and sourcing support to clients through:

- (a) Annual business guidance, which reflects the recommendations of category teams on the supply chain management catalogue of sourcing solutions, including hybrid and carbon-neutral vehicles;
- (b) Rolling reviews of clients' supply plans;
- (c) Integrated business planning process meetings to discuss requirements, review supply chain plans and ensure demands are met with fit-for-purpose solutions.

86. The Office will continue to:

- (a) Provide guidance on using hybrid and carbon-neutral vehicles to meet ground transportation needs, taking into account operational conditions and suitability;
- (b) Work with existing suppliers to expand the geographical coverage of the current contracts in order to give its clients more hybrid electric vehicle options;
- (c) Conduct market research on the hybrid electric vehicle marketplace to ensure it has the most up-to-date information on the vehicle types that may be available for global deployment through future systems contracts. The Office will directly target this market through a request for information to a wide supplier base, followed by direct meetings with vehicle manufacturers and authorized dealers.

87. **In paragraph 340 of its report, the Board recommended that the Administration draw lessons from previous experience in relation to not-to-exceed amount management and put in place a system to ensure that the not-to-exceed amount is duly considered during lease extensions.**

Department responsible: Department of Operational Support

Status: Under implementation

Priority: Medium

Target date: Fourth quarter of 2026

88. The Administration will, as part of requests for an extension of lease contracts, require requisitioners to provide comprehensive details of the elements that would necessitate obligation and disbursement of funds, so as to more accurately identify the estimated not-to-exceed amounts.

89. **In paragraph 346 of its report, the Board recommended that the Administration strengthen efforts to monitor the improper use of low-value acquisitions and blanket purchase orders by closely following up on and adopting a more targeted approach in the pilot response mechanisms in order to reduce the improper use thereof.**

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: High

Target date: Fourth quarter of 2026

90. The Business Transformation and Accountability Division has already enhanced its focus on the use of low-value acquisitions as part of its ongoing efforts to strengthen the delegation of authority monitoring framework. As noted by the Board in paragraph 343 of its report, the Division introduced a key performance indicator in 2023 to enable more targeted monitoring and outreach as a second line of defence. Paragraph 345 of the Board's report further highlights a reduction in the number of low-value acquisitions and blanket purchase orders in 2024 compared with 2023. The Board also acknowledges that a pilot response mechanism for low-value acquisitions was under way at the time of the audit, aimed at deepening understanding of the use of low-value acquisitions and informing follow-up actions in both the first and second lines of defence.

91. To further strengthen monitoring as the first line of defence, the Division will issue a guide to monitoring low-value acquisitions, which will outline the monitoring process, the recommended frequency and analytical procedures, and appropriate action in response to monitoring results.

92. **In paragraph 351 of its report, the Board recommended that the Administration enhance the Case Management Tracking System to ensure accurate data capture to enable the formalization of the timely assessment of prohibited conduct key performance indicator as soon as possible.**

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Target date:</i>	Second quarter of 2026

93. The Administration has initiated engagement with all relevant stakeholders to ensure that the planned updates to the Case Management Tracking System are implemented within the expected time frame and supported by accurate data to formalize the key performance indicator. In the coming months, proposed changes to the tracking system will be introduced and executed from a technical perspective, including necessary testing and user acceptance procedures. Close consultations are ongoing with the relevant stakeholders to address the technical aspects of the updates.

94. In paragraph 367 of its report, the Board recommended that the Administration review the integration of United Nations information centres, as requested by the General Assembly, with a view to establishing a sustained and structured mechanism for the Development Coordination Office and the Department of Global Communications, clarify the line of reporting and command, align strategic and programmatic planning and ensure that mandates, programmes and activities are developed in order to accommodate the mandates of both offices to fully reap the envisaged benefits of the development reform.

<i>Departments responsible:</i>	Department of Global Communications and Development Coordination Office
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Target date:</i>	Fourth quarter of 2026

95. The Department of Global Communications, in collaboration with the Development Coordination Office, is reviewing the integration of United Nations information centres to ensure that appropriate mechanisms are in place for clear reporting lines and strategic alignment. This effort aims to support the effective implementation of the development reform and ensure coherence with programmatic planning, mandates and activities.

96. In paragraph 375 of its report, the Board recommended that the Administration provide guidance on the assessment framework to clarify the measurement standards and methods to objectively assess and differentiate performance ratings in order to implement the new resident coordinator performance management and appraisal system in a consistent and transparent manner.

<i>Department responsible:</i>	Development Coordination Office
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Target date:</i>	Fourth quarter of 2025

97. The Administration is developing guidance on the assessment framework to support the consistent and transparent implementation of the new resident coordinator performance management and appraisal system. This guidance will clarify the measurement standards and methodologies used to objectively assess and differentiate performance ratings.

98. In paragraph 384 of its report, the Board recommended that the Administration ensure that the Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States, together with the Department of Economic and Social Affairs, conduct a comprehensive review of operational responsibilities to clarify roles, strengthen director-level communication, share work programmes and enhance collaboration with relevant entities, including the Development Coordination Office, with the aim of eliminating duplication, providing clear guidance to Member States on each entity's role and fostering coherent, efficient support for small island developing States through structured inter-office cooperation.

Departments responsible: Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States and Department of Economic and Social Affairs

Status: Under implementation

Priority: Medium

Target date: First quarter of 2026

99. Building on the existing collaboration mechanisms between the Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States and the Department of Economic and Social Affairs, such as co-chairing the Inter-Agency Consultative Group on Small Island Developing States, the Administration has begun regular coordination at the director level with a view to enhancing collaboration, eliminating duplication and fostering coherent support for small island developing States.

100. In paragraph 392 of its report, the Board recommended that the Administration review the potential outside activities of experts of sanctions committees to ensure that prior approval is sought and follow up on the 17 cases of potential conflict of interest and take appropriate action.

Department responsible: Department of Political and Peacebuilding Affairs

Status: Under implementation

Priority: High

Target date: Fourth quarter of 2026

101. The Administration has completed a preliminary review of the 17 cases of potential outside activity identified by the Board. In that review, it determined that two of the individuals referenced by the Board were not, in fact, engaged as experts on sanctions panels, groups or teams. Of the remaining 15 experts, none had engaged in outside activities without prior disclosure to the United Nations Secretariat during the period of their engagement with the Organization. The Department of Political and Peacebuilding Affairs, in consultation with relevant stakeholders, is conducting a broader review of its oversight and compliance mechanisms related to the disclosure obligations of experts of sanctions committees.

102. In paragraph 397 of its report, the Board recommended that the Administration intensify its efforts to ensure that expert panels are proposed to relevant sanctions committees in a timely manner.

Department responsible: Department of Political and Peacebuilding Affairs
Status: Under implementation
Priority: Medium
Target date: Fourth quarter of 2026

103. While the Department of Political and Peacebuilding Affairs initiates the recruitment process approximately three months prior to the adoption of sanctions renewal resolutions, challenges in identifying qualified candidates – particularly in ensuring gender balance and geographical diversity – have been a key factor contributing to delays in submitting expert panel proposals to Security Council sanctions committees within the designated two-week time frame.

104. To address this, the Department is intensifying its engagement with Member States to expand the pool of qualified candidates. In 2024 and 2025, targeted outreach efforts were made, including briefings to regional groups, virtual information sessions and direct bilateral consultations. These initiatives aimed to raise awareness of opportunities to serve on expert panels, clarify selection criteria and encourage the timely nominations of diverse and highly qualified individuals.

105. In October 2024, the Department participated in an Impactpool virtual career fair for women in senior roles, alongside other United Nations Secretariat entities. This event, hosted by a career platform specializing in humanitarian and international roles, attracted 2,343 registered participants. Of those participants, 459 women from across all regional groups visited the joint United Nations Secretariat virtual booth, which featured presentations, fact sheets, videos and information on current openings for sanctions experts. The Department plans to participate in the October 2025 Impactpool session of the impact pool to continue promoting diversity in recruitment.

106. In addition, in May and June 2024, the Department conducted briefings for representatives of the Group of African States, the Group of Arab States, the Group of Eastern European States and the Group of Latin American and Caribbean States. In May 2025, a similar briefing was held for the Group of Asia-Pacific States, with further briefings planned for the Group of African States and the Group of Arab States later in 2025. These efforts reflect the Department's ongoing commitment to strengthening the recruitment process and ensuring inclusive representation across sanctions monitoring teams, groups and panels.

107. In paragraph 403 of its report, the Board recommended that the Administration work with the Multi-Partner Trust Fund Office, as the administrative agent of the Peacebuilding Fund, to expedite the financial closure processes to better utilize the Peacebuilding Fund balance.

Department responsible: Department of Political and Peacebuilding Affairs
Status: Under implementation
Priority: High
Target date: Second quarter of 2026

108. The Administration is following up with project recipients regarding outstanding closure issues, in coordination with the Peacebuilding Contact Group. Between April and July 2025, significant progress was made. The pending issues in over 30 projects have been addressed, and financial closure has been successfully completed for 10 projects.

109. In paragraph 408 of its report, the Board recommended that the Administration work with the Multi-Partner Trust Fund Office to review its guideline on interest in order to improve the mechanism on monitoring the interest earned by non-United Nations recipient organizations with an aim of collecting the interest, where applicable.

Department responsible: Department of Political and Peacebuilding Affairs

Status: Under implementation

Priority: Medium

Target date: Third quarter of 2026

110. The Administration has initiated preliminary discussions with the Multi-Partner Trust Fund Office regarding the establishment of a structured mechanism to systematically track and monitor interest accrued by Peacebuilding Fund non-United Nations recipient organizations. The Department of Political and Peacebuilding Affairs will liaise with the Office to define the scope of the mechanism, outline the technical requirements and identify steps to ensure that the mechanism remains regularly updated and fit for purpose.

111. In paragraph 418 of its report, the Board recommended that the Administration take additional preventive measures against partners implicated in fraud, indicating to organizations that had their contracts suspended or terminated because of fraud that they are prohibited from using the Office for the Coordination of Humanitarian Affairs and country-based pooled funds logos.

Department responsible: Office for the Coordination of Humanitarian Affairs

Status: Under implementation

Priority: High

Target date: Second quarter of 2026

112. The Office for the Coordination of Humanitarian Affairs is currently revising the visibility guidance for partners to clarify the conditions under which the country-based pooled funds logo may be used. The revised guidance will explicitly prohibit the use of the country-based pooled funds logo in cases where a partner's engagement has been suspended or terminated by the Office.

113. In paragraph 424 of its report, the Board recommended that the Administration establish a process requiring partners to declare the availability of separate interest-bearing bank accounts when submitting project proposals in order to improve the reporting and reimbursement of interest income.

Department responsible: Office for the Coordination of Humanitarian Affairs
Status: Under implementation
Priority: Medium
Target date: Fourth quarter of 2025

114. The Office for the Coordination of Humanitarian Affairs is in the process of implementing system checks within the One Grant Management System to strengthen financial oversight. These checks will capture whether a separate interest-bearing bank account is available at the time of project proposal submission and will also indicate whether interest was earned at the conclusion of project implementation.

115. In paragraph 431 of its report, the Board recommended that the Administration strengthen project proposals by specifying the funding sources for related project outputs.

Department responsible: Office for the Coordination of Humanitarian Affairs
Status: Closure requested
Priority: Medium
Target date: Not applicable

116. The Office for the Coordination of Humanitarian Affairs has engaged with the humanitarian financing units of country and regional funds and provided guidance to ensure that funding sources for joint projects and interventions are clearly reflected in project proposals. The Administration considers this recommendation to be implemented and requests its closure by the Board.

117. In paragraph 440, the Board recommended that the Administration strengthen the consolidation of demand requirements for enterprise information and communications technology (ICT) services across all Secretariat entities.

Department responsible: Office of Information and Communications Technology
Status: Under implementation
Priority: High
Target date: Fourth quarter of 2026

118. The Administration is in the early stages of designing a process map for the current demand for ICT services within the United Nations Secretariat.

119. In paragraph 441 of its report, the Board recommended that the Administration have the High-level Committee on Management foster deeper coordination and collaboration among the United Nations organizations in all matters related to ICT, including through shared procurement, in order to realize cost savings.

Departments responsible: Office of Information and Communications Technology and United Nations Chief Executives Board for Coordination

Status: Under implementation

Priority: High

Target date: Fourth quarter of 2026

120. The Administration remains committed to strengthening system-wide coordination on ICT matters, thereby ensuring that all United Nations organizations – including agencies, funds and programmes – benefit from harmonized ICT service delivery. The High-level Committee on Management and the UN80 Initiative are key platforms for advancing this objective.

121. The Office of Information and Communications Technology is leading efforts along two primary tracks, while also supporting ICT-intensive initiatives led by other entities:

(a) Integrated ICT procurement and shared services: the Office is spearheading the development of a unified ICT procurement and shared services catalogue, as well as the “OneIT” initiative, aimed at streamlining ICT operations across the United Nations system. This includes the consolidation of data centres, services and infrastructure. By leveraging collective bargaining power, the United Nations can secure more favourable terms and pricing, resulting in significant cost savings and improved service quality;

(b) Coherent implementation approach: a unified implementation strategy for both tracks is expected to be established in 2026.

122. In paragraph 449 of its report, the Board recommended that the Administration conduct a comprehensive assessment of the dependency on a single vendor for ICT contracts with a high value and assess the feasibility of adopting an exit strategy to mitigate operational risks to best protect the interest of the Organization.

Departments responsible: Office of Information and Communications Technology and Department of Operational Support

Status: Under implementation

Priority: High

Target date: Fourth quarter of 2026

123. The Administration is conducting a review of high-value ICT contracts to support a comprehensive risk assessment. Following completion of the review, the next phase will focus on identifying and implementing appropriate mitigation strategies, including an exit strategy, to address operational risks associated with single-vendor dependency.

124. In paragraph 461 of its report, the Board recommended that the Administration work on a detailed implementation plan, clarify resource estimation, develop an outreach component and conduct a review of efficiency initiatives for the refined ICT strategy in line with General Assembly resolutions.

<i>Department responsible:</i>	Office of Information and Communications Technology
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Target date:</i>	Second quarter of 2026

125. The information referred to in the Board's recommendation was also requested by the General Assembly in its resolution [79/258](#) B and will be provided in the forthcoming report of the Secretary-General on the implementation of the ICT strategy, which is scheduled for consideration by the Assembly during its eightieth session.

126. In paragraph 466 of its report, the Board recommended that the Administration include, in all future submissions to the Headquarters Committee on Contracts for extensions of ICT contracts with a long duration (i.e., exceeding five years), an analysis of the potential advantages and disadvantages of such a long-term commitment.

<i>Department responsible:</i>	Office of Information and Communications Technology
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Target date:</i>	Fourth quarter of 2026

127. The Office of Information and Communications Technology will provide future documentation demonstrating its enhanced engagement with the Headquarters Committee on Contracts, as outlined in the recommendation. As part of this effort, the Office will apply its category management strategy to deconstruct large-scale contracts into multiple, technology-specific agreements. In addition, evidence will be submitted to the Committee regarding multiple upcoming and ongoing solicitations designed to address long-term contractual commitments.

C. Implementation of the recommendations contained in the reports of the Board of Auditors on the United Nations for prior financial periods

Overview

128. In paragraph 12 of its resolution [79/245](#) A, the General Assembly reiterated its request to the Secretary-General to provide in his reports on the implementation of the recommendations of the Board of Auditors a full explanation for the delays in the implementation of the recommendations of the Board, in particular those recommendations not yet fully implemented that were two or more years old.

129. In annex I to its report on the United Nations for the year ended 31 December 2024, the Board provided a summary of the status of implementation, as of December 2024, of its 187 extant recommendations relating to nine prior financial periods up to 31 December 2023. Of those 187 recommendations, 84 (45 per cent) had been fully implemented, 17 (9 per cent) had been overtaken by events and 86 (46 per cent) were under implementation.

130. The overall status of implementation, as of December 2024, of the recommendations contained in the Board's reports on the United Nations for the nine prior financial periods is shown in table 3, reflecting an aggregate implementation rate of 74 per cent and an additional 14 per cent of recommendations closed by the Board or assessed as overtaken by events.

Table 3

Overall status of implementation of the recommendations of the Board of Auditors on the United Nations for nine prior periods, as at 31 December 2024

<i>Period/report No.</i>	<i>Total recommendations issued for each period</i>	<i>Implemented since the issue period</i>	<i>Closed by the Board/ overtaken by events</i>	<i>Under implementation</i>
2015/(A/71/5 (Vol. I), chap. II)	44	32 (72%)	10 (23%)	2 (5%)
2016/(A/72/5 (Vol. I), chap. II)	53	41 (77%)	12 (23%)	–
2017/(A/73/5 (Vol. I), chap. II)	71	59 (83%)	11 (16%)	1 (1%)
2018/(A/74/5 (Vol. I), chap. II)	71	60 (84%)	9 (13%)	2 (3%)
2019/(A/75/5 (Vol. I), chap. II)	113	94 (83%)	16 (14%)	3 (3%)
2020/(A/76/5 (Vol. I), chap. II)	126	98 (78%)	21 (17%)	7 (5%)
2021/(A/77/5 (Vol. I), chap. II)	102	72 (70%)	15 (15%)	15 (15%)
2022/(A/78/5 (Vol. I), chap. II)	80	58 (73%)	6 (7%)	16 (20%)
2023/(A/79/5 (Vol. I), chap. II)	72	32 (45%)	–	40 (55%)
Total	732	546 (74%)	100 (14%)	86 (12%)

131. The figure below shows the overall movement of the extant recommendations of the Board in its reports on the operations of the United Nations as reported in volume I for the financial periods between the 2015 and 2024. Owing to efforts made by the Administration to close recommendations, the number of extant recommendations has been declining over the past five financial periods.

Trends in the implementation of extant recommendations of the Board, 2015–2024

132. Table 4 shows the overall situation, as of August 2025, with respect to the 86 recommendations that had been determined by the Board to be under implementation as of December 2024.

Table 4
Status of implementation of extant recommendations for prior periods as identified in annex I to the report of the Board of Auditors on the United Nations for the year ended 31 December 2024
 (Number of recommendations)

<i>Department(s)/Office(s) responsible</i>	<i>Total</i>	<i>Closure requested</i>	<i>Not accepted</i>	<i>In progress</i>	<i>Target date set</i>	<i>No target date</i>
Department of Economic and Social Affairs	1	–	–	1	1	–
Department of Management Strategy, Policy and Compliance	44	8	–	36	36	–
Department of Operational Support	4	–	–	4	4	–
Development Coordination Office	11	6	–	5	5	–
Office for the Coordination of Humanitarian Affairs	5	2	–	3	3	–
Office of Information and Communications Technology	13	5	–	8	8	–
United Nations Office at Nairobi	1	1	–	–	–	–
Multiple departments	7	4	–	3	3	–
Total	86	26	–	60	60	–

133. As indicated in table 4, of the 86 recommendations determined by the Board to be under implementation, closure has been requested for 26 and 60 were under implementation as of August 2025. Of the 60 recommendations that were under implementation, 34 are scheduled to be implemented before the end of 2025 and 26 in 2026.

Detailed information on implementation status

Report of the Board for the year ended 31 December 2015²

134. In paragraph 256 of its report, the Board recommended that the legal framework around the granting of funds to partners should be formally introduced into the Financial Regulations and Rules.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	First quarter of 2020
<i>Revised target date:</i>	Fourth quarter of 2025

135. The Secretary-General prepared a report on the proposed amendments to the Financial Regulations of the United Nations for consideration by the General Assembly in 2019 (A/73/717). The report included regulations and rules for the granting of funds to partners and grantees. Following the formal introduction of the report to the Fifth Committee, the Assembly did not take action on it or on the related report of the Advisory Committee on Administrative and Budgetary Questions (A/73/817). Another report of the Secretary-General on the same subject is under preparation for consideration by the Assembly during its eightieth session. Once approved by the Assembly, the revised financial regulations will serve as a sound

² A/71/5 (Vol. I), chap. II.

basis for finalizing a Secretariat-wide policy framework on the management of implementing partners and grant recipients.

136. In paragraph 264 of its report, the Board recommended that the Administration develop a common principles-based framework for the management of partners that specifies the key procedures to be performed by all Secretariat entities. To facilitate the development of the common framework, the Secretariat should conduct an end-to-end review of the project management life cycle, including consultations with key stakeholders and a review of all current practices.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	Third quarter of 2017
<i>Revised target date:</i>	Fourth quarter of 2025

137. Please refer to the Administration's comments above relating to the recommendation in paragraph 256 of the Board's report for the year ended 31 December 2015.

Report of the Board for the year ended 31 December 2017³

138. In paragraph 81 of its report, the Board recommended that the United Nations Treasury formalize the participation of different entities in the main cash pool by way of written agreements with them.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2022
<i>Revised target date:</i>	Fourth quarter of 2025

139. The exercise to determine the entities for which an agreement is required involves a full legal review. Implementation of this recommendation has therefore taken longer in view of the number of entities that required a detailed review, which included a comprehensive examination of the nature and legal status of each relevant entity, body or association, concerning, inter alia, their establishment, the appointment of the heads, and the financial regulations and rules applicable to each.

Report of the Board for the year ended 31 December 2018⁴

140. In paragraph 132 of its report, the Board further recommended that the Administration review the third-party administrator reporting templates for gaps in data quality and standardization and streamline the data elements in the paid claims files to enable authentication of subscribers and expenditure, help

³ A/73/5 (Vol. I), chap. II.

⁴ A/74/5 (Vol. I), chap. II.

identify red flags and carry out correct and comprehensive classification of claims.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2020
<i>Revised target date:</i>	Fourth quarter of 2025

141. The Administration has made progress in reviewing and standardizing how eligibility files are used by the third-party administrators in categorizing and managing subscribers. The standardization of reports of paid claims is more challenging, given that the third-party administrators have different information systems and because healthcare is provided globally, with differences in expenditure classifications depending on the country where the medical services are provided. In addition, the amount of information that can be provided by the third-party administrators is restricted, as medical data is confidential. These challenges, along with resource constraints, have been the primary cause of the delays in implementing this recommendation. Additional reviews and discussions with the third-party administrators are planned in the coming months to identify further areas for potential standardization of reporting elements and to refine reporting provisions in third-party administrators' contracts. In addition, a health insurance claim audit firm is being engaged to help to identify potential red flags and to review the data quality of paid claims reports.

142. In paragraph 303 of its report, the Board recommended that the Administration upgrade the information technology resources of the Non-Governmental Organizations Branch to ensure efficient and timely processing of new applications for consultative status from NGOs, as well as processing of increasing number of quadrennial reports. The Department of Economic and Social Affairs should also monitor the initiatives by NGOs that are related to the Sustainable Development Goals.

<i>Department responsible:</i>	Department of Economic and Social Affairs
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2021
<i>Revised target date:</i>	Fourth quarter of 2026

143. Issues identified in the user acceptance testing continue to be addressed by the vendor and the Department of Economic and Social Affairs. Several more rounds of testing and fixes by the consultant company are expected. The delay in implementation of the recommendation was due to resource constraints.

Report of the Board for the year ended 31 December 2019⁵

144. In paragraph 61 of its report, the Board recommended that the Administration carry out a thorough review of cost recovery in the cost-recovery fund (10 RCR) to ensure its reasonableness.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	Fourth quarter of 2020
<i>Revised target date:</i>	Fourth quarter of 2025

145. The Administration's efforts to address this recommendation in a timely manner have been affected by limited staffing and by competing priorities, especially with increased demands from oversight and legislative bodies and the expansion of cost-recovery activities. However, the Administration is preparing a report on cost recovery for presentation at the eightieth session of the General Assembly. The report will include a review of the cost-recovery funds. In addition to this review, the Department of Management Strategy, Policy and Compliance has requested service providers with fund balances in excess of the one-year threshold to provide a medium-term plan detailing the fund balance requirements, including for staff liabilities, operating costs and capital expenditures. Once the report is submitted to the Assembly, closure of the recommendation will be requested.

146. In paragraph 90 of its report, the Board recommended that the Administration complete the exercise of aligning Umoja objects of expenditure with budget objects of expenditure within a reasonable time frame.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	Second quarter of 2024
<i>Revised target date:</i>	First quarter of 2026

147. The Administration is working on aligning budget and actual expenditures concerning consultants and individual contractors in order to ensure appropriate alignment for all parties using the same objects of expenditure in Umoja, except for specific cases in which the budget is consolidated to address specific demands (e.g. the presentation of consolidated resources for training). The implementation of this recommendation has been delayed because of capacity constraints in the Programme Planning and Budget Division, which experienced a vacancy rate of over 30 per cent in 2024, and by the launch of the resource-intensive UN80 Initiative in the first quarter of 2025. The Administration is reconsidering its approach in the light of the reorganization of the Office of Programme Planning, Finance and Budget that will be proposed in the context of the UN80 Initiative.

⁵ A/75/5 (Vol. I), chap. II.

148. In paragraph 420 of its report, the Board recommended that the Administration put in place a mechanism for monitoring the creation and composition of local property survey boards.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Third quarter of 2021
<i>Revised target date:</i>	First quarter of 2026

149. The promulgation of the administrative instruction governing the functioning of the property survey board has been delayed due to the need for policy consistency, further consultations with key property management components and other stakeholders, and the prioritization of peace operations undergoing downsizing or liquidation. Finalizing the administrative instruction remains a priority; however, deeper consultations were necessary with various asset management offices to ensure alignment between the policy and existing guidance documents. In addition, the immediate focus on mission drawdowns and closures and the review of property cases generated by those drawdowns and closures contributed to the delay. To complete the process, the Headquarters Property Survey Board, in coordination with stakeholders and the Global Asset Management Policy Service, is incorporating feedback into the draft administrative instruction. Barring any unforeseen delays, completion is anticipated for the first quarter of 2026.

Report of the Board for the year ended 31 December 2020⁶

150. In paragraph 30 of its report, the Board recommended that the Administration enhance the performance of fund utilization under the cost-recovery fund (10RCR) to contribute to improved mandate delivery.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	Fourth quarter of 2021
<i>Revised target date:</i>	Fourth quarter of 2025

151. Please refer to the Administration's comments above relating to the recommendation in paragraph 61 of the Board's report for the year ended 31 December 2019.

152. In paragraph 107 of its report, the Board recommended that the Administration formalize the procedures for cash management under the "T+3" model, clearly defining responsibilities of cashiers at United Nations Headquarters and local offices, and take action to accelerate the progress of

⁶ A/76/5 (Vol. I), chap. II.

modification of the Umoja cashier business roles and the development of the new payroll process model.

<i>Departments responsible:</i>	Department of Management Strategy, Policy and Compliance and Enterprise Resource Planning Solution Division
<i>Status:</i>	Closure requested
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2022
<i>Revised target date:</i>	Not applicable

153. The procedures governing the cash management function have been formalized. The Administration has implemented a monitoring mechanism to ensure that cashiers exercise their Umoja roles responsibly. This process is designed to detect and address any anomalies promptly. The Administration has previously shared with the Board the results of the monitoring exercise covering the period from 31 May 2024 to 6 March 2025, along with its conclusions.

154. In paragraph 147 of its report, the Board recommended that the Administration, in coordination with the third-party administrators, conduct an assessment on the affordability of the Medical Insurance Plan for locally recruited staff and retirees at designated duty stations, by taking into account the current financial situation of the Plan and the increasing cost of healthcare globally to ensure the sustainability of the Plan.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Third quarter of 2022
<i>Revised target date:</i>	First quarter of 2026

155. Preliminary information has been received from the consulting actuary, and it is being reviewed to determine appropriate contribution rates and reserve levels and implementation options, taking into consideration the affordability of contributions for participating staff and retirees and the total contributions required to ensure the sustainability of the Plan. Reviewing the Medical Insurance Plan is a major undertaking and the affordability of the plan for locally recruited staff and retirees is one of several financial elements requiring review, which include regional loss ratios, the bases for participant contributions and overall benefit coverage. Each of these reviews is necessary and interdependent to ensure the ultimate sustainability of the Plan. The significant breadth of the review, the fact that relevant after-service health insurance participant data were not recorded in Umoja until 2022, the interdependency of the relevant components requiring review, and the required actuarial input and strategizing of the restructuring necessary to ensure Plan sustainability, in addition to a lack of adequate resources to conduct the reviews, have delayed the implementation of this recommendation.

156. In paragraph 419 of its report, the Board recommended that the Administration review the policies on rosters, taking into consideration

geographical diversity, gender parity and sunset clauses, to ensure rightsizing based on workforce planning forecasts, clarify accountability for maintaining rosters and formulate guidance for hiring managers on selecting rostered candidates.

<i>Departments responsible:</i>	Department of Management Strategy, Policy and Compliance and Department of Operational Support
<i>Status:</i>	Closure requested
<i>Priority:</i>	High
<i>Original target date:</i>	Fourth quarter of 2022
<i>Revised target date:</i>	Not applicable

157. The revised administrative instruction on the staff selection system (ST/AI/2025/2) was promulgated on 1 August 2025. The Administration considers this recommendation to be implemented and requests its closure by the Board.

158. In paragraph 509 of its report, the Board recommended that the Administration intensify its resource mobilization efforts to ensure adequate, predictable and sustainable funding to support the resident coordinator system.

<i>Department responsible:</i>	Development Coordination Office
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2021
<i>Revised target date:</i>	Fourth quarter of 2026

159. The Development Coordination Office continues to advance its outreach and resource mobilization efforts, actively engaging with Member States at all levels. These efforts are closely coordinated across the Office, including senior management, and with the United Nations teams in Brussels and Washington, D.C. The Office maintains consistent, daily engagement with technical focal points in missions in New York and in capitals, advocating for voluntary contributions to the resident coordinator system and, where feasible, application of the levy at source.

160. During 2025, the Development Coordination Office leadership has convened a series of meetings with counterparts from capitals on the margins of United Nations events. In parallel, the senior leadership continues to emphasize the importance of enhancing the quality of funding. Strategic opportunities, such as annual ambassador conferences and strategic dialogues, are being leveraged to update Member States on the system's impact, supported by targeted communication materials and advocacy efforts. Internally, the Office has strengthened its capacity to support the intensification of outreach and resource mobilization activities.

161. In paragraph 516 of its report, the Board reiterated its recommendation that the Administration expand the donor base to encourage contributions, on a voluntary basis, to the capitalization of the Joint Sustainable Development Goals Fund at the required levels.

<i>Department responsible:</i>	Development Coordination Office
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2022
<i>Revised target date:</i>	Fourth quarter of 2025

162. As of June 2025, the Joint Sustainable Development Goals Fund had received approximately \$40 million in deposits and signed contributions, with a realistic projection of \$50 to \$55 million by year-end. This anticipated capitalization follows the Fund's growth trajectory, which saw \$89.7 million in contributions in 2024. At the July 2025 meeting of the Strategic Advisory Group, chaired by the Deputy Secretary-General, Member States expressed a strong consensus on positioning the Fund as the leading platform for implementation of the outcomes of the Fourth International Conference on Financing for Development. Participants committed to intensifying advocacy and resource mobilization efforts. In line with the decision taken by the Executive Committee established by the Secretary-General, the Fund has developed a joint resource mobilization strategy in collaboration with the Central Emergency Response Fund and the Peacebuilding Fund, which has been endorsed by the Executive Office of the Secretary-General. The strategy aims to enhance synergies and broaden donor engagement. The Joint Sustainable Development Goals Fund has also received encouraging signals regarding additional commitments from the Global Flagship Initiative for Food Security, which supports food systems programming in various developing countries, highlighting the Fund's efforts to diversify and strengthen financing for key transitions.

163. One Member State has reaffirmed its leadership as the Fund's largest supporter, pledging an additional 28 million euros in unearmarked contributions for the period 2025–2026 and another 4 million euros earmarked for Sustainable Development Goal localization until 2028. Another Member State has emerged as a strategic partner, providing earmarked support for food systems and for programming relating to the Global Accelerator on Jobs and Social Protection for Just Transitions, reflecting growing engagement. Despite these positive developments, donor concentration remains a concern, underscoring the urgent need for diversification. Strategic Advisory Group members have committed to pursuing multi-year pledges, prioritizing unearmarked contributions and leveraging global platforms to highlight the Fund's alignment with the reform objectives of the UN80 Initiative and its role in reducing system fragmentation. However, current capitalization levels remain significantly below the funding compact target of \$500 million annually, emphasizing the continued need for expanded donor engagement and enhanced resource mobilization to fully realize the Fund's potential by 2030.

164. In paragraph 721 of its report, the Board reiterated its recommendation that the Administration clearly define the functions and responsibilities of each division and service within the Office of Information and Communications Technology to avoid duplication and fragmentation within the Office.

<i>Department responsible:</i>	Office of Information and Communications Technology
<i>Status:</i>	Closure requested
<i>Priority:</i>	High
<i>Original target date:</i>	Fourth quarter of 2022
<i>Revised target date:</i>	Not applicable

165. A review of the functions and responsibilities of each division within the Office of Information and Communications Technology is undertaken annually in the context of preparing the proposed programme plan and budget for the Office, which are reviewed by the Committee for Programme and Coordination and the Fifth Committee, respectively. The Office's divisions and services prepare annual workplans that are centrally reviewed to ensure that there is no duplication or fragmentation. The Administration considers this recommendation to be implemented and requests its closure by the Board.

Report of the Board for the year ended 31 December 2021⁷

166. In paragraph 63 of its report, the Board recommended that the Administration explore the possibility of establishing a productive and economical cost-tracing regime at the service level to ensure that the full cost of each service category can be measured realistically and objectively, with a view to avoiding any excess recovery or insufficient recovery of costs.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Closure requested
<i>Priority:</i>	High
<i>Original target date:</i>	Fourth quarter of 2023
<i>Revised target date:</i>	Not applicable

167. The Administration has looked into establishing a cost-tracing regime and, as it has previously informed the Board, there are practical limitations. The best practice is for service providers to do it at the fund-centre level, but, in some cases, it can only be done at the functional-area level. The Administration has released a dashboard to service providers for the use of data models associated with cost recovery. The Administration considers this recommendation to be implemented and requests its closure by the Board.

168. In paragraph 138 of its report, the Board recommended that the Administration provide updated guidance to departments and offices to minimize risks to which the United Nations may be exposed when signing and implementing agreements with donors.

⁷ A/77/5 (Vol. I), chap. II.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	Not applicable
<i>Revised target date:</i>	First quarter of 2026

169. The updated guidelines for departments address multi-disciplinary issues and thus entail Secretariat-wide consultations. The guidelines are undergoing internal review and clearance by relevant stakeholders within the Secretariat to ensure consistency and cohesion.

170. In paragraph 148 of its report, the Board recommended that the Administration appropriately deal with the cash pool balances of the three closed country-based pooled fund accounts, properly consolidate the old country-based pooled fund accounts and assign the refunds in a timely manner.

<i>Department responsible:</i>	Office for the Coordination of Humanitarian Affairs
<i>Status:</i>	Closure requested
<i>Priority:</i>	High
<i>Original target date:</i>	Second quarter of 2023
<i>Revised target date:</i>	Not applicable

171. Of the three closed country-based pooled fund accounts referenced in the Board's recommendation, the closure of only one account remained pending at the time of the audit and it has since been completed. The Administration considers this recommendation to be implemented and requests its closure by the Board.

172. In paragraph 178 of its report, the Board recommended that the Administration continue its periodic review of historical purchasing patterns of relevant currencies under the regular budget and extrabudgetary resources and consider expanding the hedging scope for those currencies associated with a high foreign exchange risk.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Second quarter of 2023
<i>Revised target date:</i>	Fourth quarter of 2025

173. Expenditure by currency and budget source is reviewed on an annual basis. An analysis to consider expanding the scope is expected to be completed as part of the 2025 hedging exercise.

174. In paragraph 191 of its report, the Board recommended that the Administration establish formal procedures to review the post-trade date increases in the concentration levels, make decisions on the basis of the nature and risk exposure of investment portfolios, and document the decision-making process appropriately.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: Medium

Original target date: Fourth quarter of 2022

Revised target date: Fourth quarter of 2025

175. The Administration is in the process of finalizing the update to the investment guidelines, which will formalize the steps taken in the unusual situation where an increase in concentration level arises. Implementation of this recommendation has taken longer since a consolidated approach to implementation was taken in order to incorporate other items, including the investment of after-service health insurance extrabudgetary reserves (see the recommendation contained in [A/79/5 \(Vol. I\)](#), chap. II, para. 200).

176. In paragraph 212 of its report, the Board recommended that the Administration expedite the execution of collective negotiations and the formalization of standardized agreements.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Closure requested

Priority: Medium

Original target date: Fourth quarter of 2022

Revised target date: Not applicable

177. The Medical Insurance Plan's contract that went into effect in April 2024 was formally signed on 27 March 2024. The Administration considers this recommendation to be implemented and requests its closure by the Board.

178. In paragraph 272 of its report, the Board recommended that the Administration strengthen monitoring to ensure that all the general temporary assistance positions are used in full compliance with the related policies and regulations.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Closure requested

Priority: High

Original target date: Second quarter of 2023

Revised target date: Not applicable

179. Please refer to the Administration's comments above relating to the recommendation in paragraph 419 of the Board's report for the year ended 31 December 2020.

180. In paragraph 329 of its report, the Board further recommended that the Administration update the policy to address deficiencies in roster-based recruitment and clean up the roster data.

Department responsible: Department of Management Strategy, Policy and Compliance
Status: Closure requested
Priority: Medium
Original target date: Fourth quarter of 2023
Revised target date: Not applicable

181. Please refer to the Administration's comments above relating to the recommendation in paragraph 419 of the Board's report for the year ended 31 December 2020.

182. In paragraph 358 of its report, the Board recommended that the Administration make the registration and recording of vaccines in Everbridge easier for country teams to overcome the challenges in accounting for all vaccines allocated to them, track the utilization of all deployed vaccines as accurately as possible, and produce a comprehensive report at the conclusion of the United Nations System-wide COVID-19 Vaccination Programme.

Department responsible: Department of Operational Support
Status: Under implementation
Priority: Medium
Original target date: Second quarter of 2023
Revised target date: Fourth quarter of 2025

183. The delays in implementing this recommendation are attributed to ongoing stakeholder engagement and consultations, which are essential to ensure the recommended comprehensive report accurately reflects the diverse perspectives of all partners involved. The Administration is in the final stages of preparing the report, with its completion anticipated in the fourth quarter of 2025.

184. In paragraph 426 of its report, the Board recommended that the Administration develop a resident coordinator handbook to provide more guidance to resident coordinators ad interim in delivering the expected results.

Department responsible: Development Coordination Office
Status: Closure requested
Priority: High
Original target date: Fourth quarter of 2022
Revised target date: Not applicable

185. The resident coordinator handbook has not been finalized, as it has become evident that the pace at which guidance must be updated is not compatible with a static product. A handbook risks becoming outdated shortly after publication. Instead, resident coordinators now have access to the Development Coordination Office's SharePoint knowledge management site, which provides up-to-date and comprehensive guidance. The Administration considers this recommendation to have been overtaken by events and requests its closure by the Board.

186. In paragraph 552 of its report, the Board recommended that the Administration draw experiences and lessons from Department for General Assembly and Conference Management and Department of Safety and Security collaboration and develop guidance on the establishment of ICT governance bodies at the entity level.

<i>Department responsible:</i>	Office of Information and Communications Technology
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Second quarter of 2023
<i>Revised target date:</i>	Second quarter of 2026

187. This recommendation is under implementation. The draft ICT accountability framework is currently being finalized, and, once finalized, the Office of Information and Communications Technology will prepare the associated guidance on setting up entity-level governance. The framework and guidance will strengthen overall ICT governance. Delays in implementing this recommendation are due to the level of stakeholder engagement needed for preparing the framework.

188. In paragraph 560 of its report, the Board recommended that the Administration ensure that an independent monitoring and accountability mechanism is in place to enforce ICT governance, policies and standards.

<i>Department responsible:</i>	Office of Information and Communications Technology
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Second quarter of 2023
<i>Revised target date:</i>	Second quarter of 2026

189. This recommendation continues to be under implementation. The Office of Information and Communications Technology is currently engaged in consultations with stakeholders on the draft ICT accountability framework, which will be presented to the ICT Steering Committee before early 2026.

190. In paragraph 567 of its report, the Board recommended that the Administration amend the existing ICT governance structure to integrate information security, indicating clearly, among others, the ownership of processes, roles and responsibilities of relevant entities and reporting lines.

<i>Department responsible:</i>	Office of Information and Communications Technology
<i>Status:</i>	Closure requested
<i>Priority:</i>	High
<i>Original target date:</i>	Fourth quarter of 2023
<i>Revised target date:</i>	Not applicable

191. Implementation was carried out in a phased manner and delays were experienced due to resource constraints. The Office of Information and Communications Technology has integrated regular briefings on ICT security and incidents into meetings of the ICT Steering Committee and reestablished the Information Security Board in 2025, which is actively fulfilling its mandate, with two quarterly meetings held as of August 2025. The Administration considers this recommendation to be implemented and requests its closure by the Board.

192. In paragraph 568 of its report, the Board recommended that the Administration ensure that all the stakeholders across the Secretariat commit themselves to the implementation of the seven-point information security action plan in an expeditious manner.

<i>Department responsible:</i>	Office of Information and Communications Technology
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	Fourth quarter of 2024
<i>Revised target date:</i>	Second quarter of 2026

193. The Office of Information and Communications Technology is continuing its outreach to entities and stakeholders to implement the remaining elements of the seven-point information security action plan. Implementation of the seven-point action plan has been challenging. Some of the points on the action plan, for example the fully implemented segmentation of all Secretariat voice and data networks globally, required enterprise programmes of work and change management actions involving technical teams located in all entities. Other steps, such as the creation and management of a repository of websites and applications to ensure the completeness and accuracy of records, involved detailed verification of self-assessments against key security policies. The remaining outstanding items include the migration of legacy and unsupported systems to standard platforms, which requires financial investment and thus leads to implementation over multiple periods, which results in some delays.

194. In paragraph 599 of its report, the Board recommended that the Administration ensure that ICT assets are properly recorded in Umoja for greater visibility and reliability to ensure improved monitoring and controls.

<i>Department responsible:</i>	Office of Information and Communications Technology
<i>Status:</i>	Closure requested
<i>Priority:</i>	Medium
<i>Original target date:</i>	Second quarter of 2023
<i>Revised target date:</i>	Not applicable

195. The Office of Information and Communications Technology has submitted the latest ICT asset report to the Board and will provide guidance on the periodic monitoring of ICT assets. In light of the actions taken, the Administration considers this recommendation to be implemented and requests its closure by the Board.

Report of the Board for the year ended 31 December 2022⁸

196. In paragraph 63 of its report, the Board recommended that the Administration ensure that the special political missions conduct a comprehensive analysis of the root causes for the significant variances between actual vehicle and computing devices holdings and standard allocations.

<i>Departments responsible:</i>	Office for Disarmament Affairs, BINUH, United Nations Assistance Mission in Afghanistan (UNAMA), United Nations Support Mission in Libya (UNSMIL), United Nations Office for West Africa and the Sahel, Office of the Special Envoy of the Secretary-General for Syria, and Office of the Special Envoy of the Secretary-General for the Great Lakes Region
<i>Status:</i>	Closure requested
<i>Priority:</i>	Medium
<i>Original target date:</i>	Second quarter of 2024
<i>Revised target date:</i>	Not applicable

197. The Administration requests the closure of this recommendation by the Board on the basis of the following considerations:

(a) Clarification was required by the Board regarding the methodology used to calculate the device-to-staff ratio. The Administration notes that the Security Council Committee established pursuant to resolution 1540 (2004) includes a significantly large number of experts – nearly double the number of supporting United Nations Secretariat staff. Each expert, in the same way as staff members, is assigned a dedicated laptop for daily work and travel. It was therefore necessary to confirm whether experts and other consultancy positions with assigned laptops should be included in the total staff count. This discrepancy is the primary factor contributing to the elevated device-to-staff ratio;

(b) Due to recurring hardware issues identified in the most recent laptop procurement, the Support Unit in the Office for Disarmament Affairs has retained several older laptops as backup devices. The older laptops are used to ensure

⁸ A/78/5 (Vol. I), chap. II.

continuity of service when defective laptops are returned to the manufacturer for repair, a process that typically takes two weeks to one month;

(c) Some devices are designated for shared use in conference rooms and are not assigned to individual staff members, which affects the calculated ratio. In addition, in line with current financial constraints, the Administration prioritizes the use of out-of-warranty but still functional equipment over new purchases, as part of broader cost-saving measures.

198. UNAMA has retrieved 44 surplus laptops previously assigned to staff and has initiated the write-off process for devices that have exceeded their operational life. In addition, the Mission has completed the laptop replacement programme, resulting in the replacement of all outdated laptops. As of August 2025, the Mission operated a fleet of 156 vehicles, including 10 for close protection. In 2022, the holding of armoured passenger vehicles was 173. The vehicle fleet is assessed regularly for age, mileage and condition, with the aim of extending the operational useful life where possible. About 54 per cent of the fleet exceeds the 12-year life expectancy but the vehicles are in operational condition. These aged vehicles are used for passenger transportation and logistical requirements and will be phased out as they become unserviceable, which contributes to the higher-than-standard ratio of armoured vehicles when using light passenger vehicle calculations. Another factor to be considered is the security requirement for all staff to be transported in armoured vehicles, with strict security protocols such as a minimum of two vehicles per convoy, personnel protective equipment and a maximum of three passengers per vehicle.

199. In paragraph 191 of its report, the Board recommended that the Administration expedite its review and revision of the administrative instruction on programme support accounts to ensure the effective utilization of the programme support cost funds.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2024
<i>Revised target date:</i>	First quarter of 2026

200. In April 2025, the Administration issued comprehensive guidelines on the management of programme support costs. A revised administrative instruction, aligned with these guidelines, has been drafted. As the issuance of an administrative instruction requires consultation with various stakeholders, efforts are currently under way to finalize and publish the revised instruction in the first quarter of 2026.

201. In paragraph 199 of its report, the Board recommended that the Administration clearly define the meaning of each set of limits in the United Nations Investment Management Guidelines to avoid different interpretations, and amend the related Asset and Investment Manager compliance rules accordingly.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2023
<i>Revised target date:</i>	Fourth quarter of 2025

202. The Administration is in the process of finalizing the update to the United Nations Investment Management Guidelines, which clarifies the language and facilitates a clear interpretation of the rules without any ambiguity. The Bloomberg Asset and Investment Manager compliance rules will also be updated.

203. In paragraph 207 of its report, the Board recommended that the Administration clarify the credit rating rules in the investment guidelines to ensure that the actual investment practice is consistent with the rules.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2023
<i>Revised target date:</i>	Fourth quarter of 2025

204. The Administration is in the process of finalizing the update to the United Nations Investment Management Guidelines to ensure consistent references to the minimum credit rating criteria.

205. In paragraph 223 of its report, the Board recommended that the Administration establish an institutional mechanism for United Nations Medical Insurance Plan management to periodically review the performance of the Plan, propose premium rate adjustments and closely monitor the reserve balance of the Plan to ensure its sustainability.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	Fourth quarter of 2024
<i>Revised target date:</i>	First quarter of 2026

206. Please refer to the Administration's comments above relating to the recommendation in paragraph 147 of the Board's report for the year ended 31 December 2020.

207. In paragraph 229 of its report, the Board recommended that the Administration closely monitor the reserve balances of the health insurance plans and take appropriate actions in due course to ensure the reserve remains within a reasonable range.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Not applicable
<i>Revised target date:</i>	Fourth quarter of 2025

208. The actuarial review of the adequacy of reserve balances is in the final stages of completion. Pending receipt of the actuarial data, all health insurance reserve balances are being monitored, taking into account loss ratios, medical inflation and utilization rates and contribution requirements needed to ensure the reserve balances remain within a reasonable range.

209. In paragraph 241 of its report, the Board recommended that the Administration expedite the reconciliation process of accounts receivable to ensure the visibility of actual outstanding amounts and continue to urge relevant agencies and entities to pay their share of contributions to the health insurance funds in a timely manner.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2023
<i>Revised target date:</i>	Fourth quarter of 2025

210. The Administration will continue to send monthly statements to the agencies on their outstanding receivables and will continue to strengthen efforts to encourage agencies and other United Nations entities to pay their dues, including their share of contributions to the health insurance funds, on a timely basis.

211. In paragraph 293 of its report, the Board recommended that the Administration closely monitor the project implementation progress, assess and manage the schedule risk in a timely manner and take remedial measures to speed up construction of the new building.

<i>Department responsible:</i>	United Nations Office at Nairobi
<i>Status:</i>	Closure requested
<i>Priority:</i>	Medium
<i>Original target date:</i>	Not applicable
<i>Revised target date:</i>	Not applicable

212. The United Nations Office at Nairobi implemented real-time monitoring and control of project implementation through regular meetings to review progress, including between the project team, facilities team, contractor and consultants and key stakeholders. Weekly monitoring meetings were conducted to discuss any issues related to scope, costs and schedule and to prioritize necessary mitigating measures.

The Global Asset Management Policy Service team in New York also conducted independent monitoring and review of project implementation progress. Supported by an independent risk management firm since November 2017, the Global Asset Management Policy Service has conducted regular meetings with the project team to review the project's risk register and has provided guidance on the management of project risks. The new building component was completed on time and within budget in early 2025, which demonstrates that the approach to the assessment and management of schedule risks was successful. The Administration considers this recommendation to be implemented and requests its closure by the Board.

213. In paragraph 339 of its report, the Board recommended that the Administration conduct a thorough workforce review of the ICT staffing support service and avoid overreliance on third-party contract personnel.

<i>Department responsible:</i>	Office of Information and Communications Technology
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	Fourth quarter of 2024
<i>Revised target date:</i>	Fourth quarter of 2025

214. The Office of Information and Communications Technology is developing a document that will consolidate the results of its workforce review and the corresponding implementation measures. The document is expected to be completed by December 2025.

215. In paragraph 364 of its report, the Board recommended that the Administration review the policy on special post allowance to ensure that it is only applicable to exceptional cases.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	First quarter of 2024
<i>Revised target date:</i>	Second quarter of 2026

216. The new administrative instruction on special post allowance is expected to be issued by June 2026.

217. In paragraph 431 of its report, the Board recommended that the Administration, at the level of the Headquarters Committee on Contracts, issue an annual report based on its reviews, focusing on key areas of improvement and good practices that should be shared widely.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	Fourth quarter of 2023
<i>Revised target date:</i>	Fourth quarter of 2025

218. Due to competing priorities and staffing constraints within the secretariat of the Headquarters Committee on Contracts, the target date for finalizing the recommended annual report has been revised to the end of November 2025.

219. In paragraph 455 of its report, the Board recommended that the Administration expedite the review and release of the delegation of authority policy framework and put in place a more agile process to update the delegation of authority policy framework in response to changes to the wider policy framework.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2023
<i>Revised target date:</i>	Second quarter of 2026

220. The revised policy is in its finalization stage. The extended timeline to implement this recommendation reflects the inherent complexity of the policy revision, which spans four functional areas and several teams. The timeline has also been affected by the availability of key staff due to resource constraints, and significant developments in the wider administrative policy framework that needed to be reflected in the delegation of authority instrument.

221. In paragraph 486 of its report, the Board recommended that the Administration take measures to ensure adequate liquidity to finance operational requirements in the short-term, including ensuring measures for the timely recovery of outstanding receivables, and formulate a comprehensive scenario analysis which covers short-, medium- and long-term plans to address the potential liquidity challenge.

<i>Department responsible:</i>	Development Coordination Office
<i>Status:</i>	Closure requested
<i>Priority:</i>	High
<i>Original target date:</i>	Fourth quarter of 2023
<i>Revised target date:</i>	Not applicable

222. Following the commitment authority of \$53 million approved by Member States through General Assembly resolution [79/258 A](#), the Development Coordination Office remains actively engaged in mobilizing resources across the remaining three funding streams of the special purpose trust fund to support the system's operational needs. To ensure sufficient liquidity and meet short-term operational requirements,

the Office continuously monitors and manages projected cash flows, aligning fund distribution with available and predictable resources, particularly in the context of a rapidly evolving multilateral funding landscape.

223. In addition, the Development Coordination Office is implementing measures to improve the timely recovery of outstanding receivables, including enhanced follow-up mechanisms and strengthened coordination with contributing entities. The Organization continues to plan for short-, medium- and long-term liquidity scenarios to support resilience and informed decision-making. The Administration considers this recommendation to be implemented and requests its closure by the Board.

224. In paragraph 496 of its report, the Board recommended that the Administration ensure recruitment on as wide a geographical basis as possible of resident coordinators and resident coordinator pool members.

<i>Department responsible:</i>	Development Coordination Office
<i>Status:</i>	Closure requested
<i>Priority:</i>	High
<i>Original target date:</i>	Fourth quarter of 2023
<i>Revised target date:</i>	Not applicable

225. With reference to the Board's latest comments in annex I of [A/80/5 \(Vol. I\)](#), the Development Coordination Office is pleased to demonstrate that this recommendation has been implemented, supported by the following metrics:

(a) As of 1 August 2025, 63 nationalities are represented among resident coordinators, compared with 57 prior to the reform, meaning that approximately one in three Member States is represented. The Administration considers this to reflect a wide geographical basis;

(b) The proportion of resident coordinators from non-programme countries has declined steadily to 42 per cent, from 60 per cent in 2018 (pre-reform), while resident coordinators from programme countries now account for 58 per cent, up from 41 per cent in 2018 and marking a historic high;

(c) Representation from other geographical regions, in particular Africa, has also increased. For example, the percentage of resident coordinators from Africa has risen to 32 per cent, from 22 per cent pre-reform.

226. The Administration therefore requests the closure of this recommendation by the Board.

227. In paragraph 514 of its report, the Board recommended that the Administration ensure that the accountability structure and coordination mechanism under the United Nations Sustainable Development Group is fully functional with regard to the implementation of the development reform initiatives.

<i>Department responsible:</i>	Development Coordination Office
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Not applicable
<i>Revised target date:</i>	First quarter of 2026

228. The United Nations Sustainable Development Group is continuing its review of the management and accountability framework in 2025. The timeline for completion will be contingent upon the outcomes and timing of the process under the UN80 Initiative, as well as subsequent decisions by the Secretary-General, Member States and other relevant stakeholders.

229. In paragraph 588 of its report, the Board recommended that the Administration clarify the balance between the Office of Information and Communications Technology's central control and the entities' operational freedom in the procurement and management of ICT assets as part of the proposed information and communication technology accountability framework, and that the Office of Information and Communications Technology should also establish standards and assessment methods when designating entities as ICT certified.

<i>Department responsible:</i>	Office of Information and Communications Technology
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	First quarter of 2024
<i>Revised target date:</i>	Fourth quarter of 2025

230. The implementation of this recommendation is ongoing. Once issued, the ICT accountability framework will clarify roles and responsibilities for the management of ICT assets across the United Nations Secretariat.

Report of the Board for the year ended 31 December 2023⁹

231. In paragraph 34 of its report, the Board recommended that the Administration expedite the audits of implementing partners and financial closure processes of projects to ensure timely refunds and project closure with a view to improving the efficient utilization of funds thereof.

<i>Departments responsible:</i>	Office for the Coordination of Humanitarian Affairs and Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2025
<i>Revised target date:</i>	No change

232. The Office for the Coordination of Humanitarian Affairs has ensured that audits are conducted within the nine-month time frame outlined in the global guidelines, where operational conditions permit. With the introduction of new long-term agreements for audits in December 2024, a reduction in lead time for audit completion and financial closure is anticipated. A review of actual lead times following the implementation of the long-term agreements will be completed by the end of 2025.

⁹ A/79/5 (Vol. I), chap. II.

233. In paragraph 43 of its report, the Board recommended that the Administration collaborate with relevant departments/entities to strengthen the internal control related to advances to staff and expedite the collection of overdue staff advances.

Department responsible: Department of Operational Support
Status: Under implementation
Priority: Medium
Original target date: First quarter of 2025
Revised target date: Fourth quarter of 2025

234. The Administration has been working on the one-time review of open items for inactive staff. Work with client entities, where needed, is ongoing to clear open items.

235. In paragraph 60 of its report, the Board recommended that the Administration continue to monitor the relevant reserve levels, ensure that the overall 10RCR fund balance is maintained at an appropriate level in accordance with the relevant policies and guidelines, and utilize the fund more efficiently and effectively.

Department responsible: Department of Management Strategy, Policy and Compliance
Status: Under implementation
Priority: High
Original target date: Fourth quarter of 2025
Revised target date: No change

236. The Administration is continuing its review of reserve levels within the cost-recovery funds. Preliminary estimates for staff liabilities have been completed, and corresponding amounts have been set aside. In addition, the Administration has requested service providers to develop medium-term plans that will provide greater clarity on the funding required for both operating and capital costs.

237. In paragraph 66 of its report, the Board recommended that the Administration update the policy guidance to disclose to the various business owners how the investment revenue of the 10RCR fund will be used.

Department responsible: Department of Management Strategy, Policy and Compliance
Status: Closure requested
Priority: High
Original target date: First quarter of 2025
Revised target date: Not applicable

238. The Administration updated the relevant policy guidance and disclosed the use of investment revenue. The Administration considers this recommendation to be implemented and requests its closure by the Board.

239. In paragraph 75 of its report, the Board recommended that the Administration comply with relevant cost-recovery guidelines to charge for only necessary and reasonable costs in the future.

Departments responsible: UNSMIL and Department of Management Strategy, Policy and Compliance

Status: Closure requested

Priority: High

Original target date: First quarter of 2025

Revised target date: Not applicable

240. The cost recovery rates for UNSMIL have been reviewed and approved in Umoja. In addition, the 2025 cost plan developed by the Mission was submitted to United Nations Headquarters for review, and was approved in February 2025. The Administration considers this recommendation to be implemented and requests its closure by the Board.

241. In paragraph 85 of its report, the Board recommended that the Administration conduct a comprehensive cost analysis of the services provided to calculate the updated total cost of ownership and to align the relevant cost recovery with the appropriate and reasonable charges.

Department responsible: Office of Information and Communications Technology

Status: Closure requested

Priority: Medium

Original target date: Second quarter of 2025

Revised target date: Not applicable

242. The Office of Information and Communications Technology completed a comprehensive cost analysis of its core services and associated expenses, with the primary objectives of: (a) determining the cost of services provided to other Secretariat entities; (b) establishing a transparent pricing model for each service; and (c) updating service rates. This exercise resulted in a more accurate and sustainable financial framework that reflects current operational realities and is aligned with best practices outlined in the cost-recovery policy and guidelines. The Administration considers this recommendation to be implemented and requests its closure by the Board.

243. In paragraph 98 of its report, the Board recommended that the Administration review the use of the 10RCR fund for after-service health insurance and other staff-related transactions to determine if they are relevant to 10RCR and cost recovery.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Second quarter of 2025
<i>Revised target date:</i>	Fourth quarter of 2025

244. The review of the use of the 10RCR fund has commenced. However, due to competing priorities, additional time is required, including for the development of the dashboard for all cost-recovery funds and the review of historical fund balances.

245. In paragraph 127 of its report, the Board recommended that the Administration develop a clear policy guide on spendable rental income and specify the purpose, standards and methodology for calculation of the retention of spendable revenue, as well as its usage, scope and oversight.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Target date:</i>	Not applicable
<i>Revised target date:</i>	Fourth quarter of 2025

246. Implementation of the recommendation is proceeding as scheduled. The working group on global rental practices continues to advance its efforts, with the development of a policy guide on spendable rental income identified as a key objective. The working group is expected to finalize and present the proposed rental practices and rental policy by the end of 2025.

247. In paragraph 153 of its report, the Board recommended that the Administration use an appropriate way to disclose the budget implementation for the two projects, including the extended retention of commitments, to increase information transparency.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Closure requested
<i>Priority:</i>	Medium
<i>Original target date:</i>	Second quarter of 2025
<i>Revised target date:</i>	Not applicable

248. The relevant details regarding the budget execution for the two Headquarters maintenance projects – the water tank replacement and the exit ramp improvement – have been incorporated into the supplementary information to the proposed programme budget for 2026, under section 33, Construction, alteration, improvement and major maintenance. The Administration considers this recommendation to be implemented and requests its closure by the Board.

249. In paragraph 180 of its report, the Board recommended that the Administration formalize the criteria for selecting investment counterparties, in addition to the existing criteria, to enhance transparency and ensure that the decision-making process is well documented.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: High

Original target date: Fourth quarter of 2024

Revised target date: Fourth quarter of 2025

250. The Administration is working to formalize an additional minimum criterion for the selection of recommended banks within the United Nations Investment Management Guidelines that are formally approved by the Controller. This criterion – minimum shareholder equity size – is intended to enhance transparency in the selection process for recommended banks. Once approved, the additional criterion will be incorporated into the Investment Management Guidelines.

251. In paragraph 185 of its report, the Board recommended that the Administration review and update the relevant policy documents to better clarify the credit rating criteria for foreign currency exchange counterparties.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: Medium

Original target date: Fourth quarter of 2024

Revised target date: Fourth quarter of 2025

252. The Administration is working to align the minimum long-term credit rating criteria for forward transaction counterparties with those applied to general foreign exchange (spot transaction) counterparties. This alignment will be achieved through updates to the United Nations foreign currency hedging and budget rate setting guidelines. The short-term credit rating criteria are already harmonized, and the proposed adjustment to the long-term criteria will not affect the current roster of forward transaction counterparties utilized by the Organization.

253. For forward transactions, the United Nation maintains the International Swaps and Derivatives Association agreements with its counterparties. These agreements establish standardized terms and conditions for derivative transactions, ensuring consistency and legal certainty. They also include clearly defined close-out procedures, which facilitate the orderly termination of transactions in the event of default or other triggering events, thereby further mitigating counterparty credit risk.

254. In paragraph 192 of its report, the Board recommended that the Administration conduct a comprehensive review of the current policy for and management of the reserve for end-of-service liabilities under extrabudgetary resources, including reserve accrual and adjustment methods, to ensure that funding is maintained at a reasonable level.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	First quarter of 2025
<i>Revised target date:</i>	First quarter of 2026

255. The proposed approach and draft policy are currently undergoing internal review and deliberation. These documents have been prepared for further consultation with relevant stakeholders, followed by engagement with an independent actuary to conduct a precise financial assessment. The assessment will serve as the foundation for subsequent review and refinement of the policy.

256. In paragraph 200 of its report, the Board recommended that the Administration expedite the process of formalizing the investment guidelines for end-of-service liability reserves (including after-service health insurance) and engage with the asset management entity to better align assets with respective liabilities.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	First quarter of 2025
<i>Revised target date:</i>	Fourth quarter of 2025

257. The Procurement Division is finalizing contract negotiations with the external asset manager, piggybacking on an existing contract of another United Nations entity. Investment guidelines for extrabudgetary after-service health insurance reserves have been drafted based on the completed asset allocation study and are awaiting final approval.

258. In paragraph 207 of its report, the Board recommended that the Administration expedite the completion of the review of the additional considerations deemed necessary to determine and implement the application of updated distribution rates to allocate after-service health insurance expenditures between the regular budget, the budgets for peacekeeping operations and extrabudgetary resources.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Closure requested
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2024
<i>Revised target date:</i>	Not applicable

259. The analysis, including the review of actuarial input, was completed, with updated apportionment rates used in the preparation of the 2026 budget proposal for the regular budget. The Administration considers this recommendation to be implemented and requests its closure by the Board.

260. In paragraph 218 of its report, the Board recommended that the Administration conduct comprehensive reviews of equipment records to ensure the accuracy of data in Umoja and take proactive measures to avoid the potential waste of assets.

<i>Departments responsible:</i>	Department of Management Strategy, Policy and Compliance, UNAMA and Department of Safety and Security
<i>Status:</i>	Closure requested
<i>Priority:</i>	High
<i>Original target date:</i>	Third quarter of 2025
<i>Revised target date:</i>	Not applicable

261. The Administration completed the comprehensive data review centrally and communicated data discrepancies for resolution by entities. The Administration considers this recommendation to be implemented and requests its closure by the Board.

262. In paragraph 228 of its report, the Board recommended that the Administration improve the monitoring of equipment status and the clean-up of data in Umoja to ensure the effectiveness and efficiency of computing devices management.

<i>Departments responsible:</i>	Department of Management Strategy, Policy and Compliance, Office of Information and Communications Technology, Enterprise Resource Planning Solution Division, United Nations Regional Office for Central Africa, UNAMA and UNSMIL
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	Third quarter of 2025
<i>Revised target date:</i>	Fourth quarter of 2025

263. Following the completion of a comprehensive data review mentioned in the Administration's comments above relating to the recommendation in paragraph 218 of the Board's report for the year ended 31 December 2023, the Global Asset Management Policy Service has now initiated phase II of the clean-up of data in Umoja. The Administration will be generating data quality reports to identify and isolate property items that have remained idle for over one year. These findings will be addressed directly and formally with the respective entities, rather than through the quarterly property management reports, which encompass a broader range of issues beyond data quality. This targeted approach is intended to support entities in conducting a focused review of idle property, specifically those items that have been inactive for more than 12 months.

264. In paragraph 245 of its report, the Board recommended that the Administration continue to integrate duplicative system functionalities and data into the further development of new systems under the newly signed service-level agreement with the Office of Information and Communications Technology, thereby enhancing management efficiency and quality.

Departments responsible: Office of Administration of Justice and Office of Information and Communications Technology

Status: Under implementation

Priority: Medium

Original target date: Fourth quarter of 2024

Revised target date: Fourth quarter of 2025

265. The Office of Administration of Justice and the Office of Information and Communications Technology continue to collaborate closely on the implementation of this recommendation. Since the last update to the Board, several key milestones have been achieved, including: (a) the development of advanced search functionality, allowing users to perform exact phrase searches, grouped and complex queries, proximity searches and use of operators; (b) digests of selected orders have been published on the Caselaw portal, and (c) the search engine now retrieves results from both the digests and full PDF versions of judgments and orders, with search keywords clearly highlighted.

266. In addition, automatic synchronization between the case and content management system and the Caselaw portal has been successfully implemented for English-language digests. Work is ongoing to identify the most effective solution for automating synchronization of the French-language summaries.

267. In paragraph 274 of its report, the Board recommended that the Administration ensure a timely recruitment process for geographical posts and ensure that appointments from unrepresented or underrepresented countries are in line with relevant targets.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: High

Original target date: Second quarter of 2026

Revised target date: No change

268. In addition to the measures set out in paragraph 269 below, the Business Transformation and Accountability Division will undertake a targeted monitoring and outreach exercise using the results of the relevant key performance indicators to support informed decision-making by heads of entities.

269. In paragraph 278 of its report, the Board recommended that the Administration review the incumbency of geographical posts temporarily occupied by staff without geographical status and make the necessary system changes.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Second quarter of 2025
<i>Revised target date:</i>	Fourth quarter of 2025

270. The Administration notes that no system changes will be needed. The Office of Human Resources will provide guidance to entities regarding the filling of geographical posts with a view to increasing the number of incumbents with geographical status.

271 In paragraph 323 of its report, the Board recommended that the Administration develop a strategy to increase the number of potential vendors in the engineering, design and construction category that are interested in working with the United Nations.

<i>Department responsible:</i>	Department of Operational Support
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	Second quarter of 2025
<i>Revised target date:</i>	Fourth quarter of 2025

272. The engineering, design and construction category is now considered a bespoke category. There is therefore no specific category lead or category team in place to liaise with. Furthermore, the scope of the quarterly review of the supply chain demand plan does not include the engineering, design and construction category, as it is focused on core categories only. Due to the current financial situation, there have been limited opportunities to identify suitable solicitations, as many construction projects have been deferred or put on hold. The Enabling and Outreach Service has recently identified a potential project that would allow it to increase the outreach effort in order to identify additional vendors.

273. In paragraph 330 of its report, the Board recommended that the Administration take steps to more accurately forecast the estimated value of a contract as an additional element in the effective assessment of the reasonableness of quoted prices during the financial evaluation for the engineering, design and construction category.

<i>Department responsible:</i>	Department of Operational Support
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2025
<i>Revised target date:</i>	Fourth quarter of 2026

274. In view of the current liquidity situation, the Administration envisages that it could demonstrate implementation of the recommendation by the end of 2026, if the budget provisions allow for new projects.

275. In paragraph 338 of its report, the Board recommended that the Administration ensure that there is a guideline indicating clearly who should take responsibility to follow up, track and report on the referred cases, which should contain guidance on actions to be taken in a timely manner on those cases referred by the United Nations Dispute Tribunal/the United Nations Appeals Tribunal for possible action to enforce accountability.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	Second quarter of 2026
<i>Revised target date:</i>	No change

276. The standard operating procedures concerning referrals for possible action to enforce accountability under article 10.8 of the statute of the United Nations Dispute Tribunal and article 9.5 of the statute of the United Nations Appeals Tribunal have been developed and are currently undergoing consultations prior to finalization and approval.

277. In paragraph 343 of its report, the Board recommended that, subject to the legal framework, the Administration better track recoveries that were identified in the recommendations of the Office of Internal Oversight Services.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	Second quarter of 2026
<i>Revised target date:</i>	No change

278. The Administration has taken steps to coordinate a review of the end-to-end process, including mechanisms for quantifying losses and updating the guidelines on fraud and presumptive fraud.

279. Regarding the implementation of a mechanism to track recoveries, the Administration emphasizes that case investigations and recoveries are monitored at the entity level, in line with the delegation of authority policy framework, with heads of entities accountable. Nonetheless, the Administration recognizes the need for a mechanism to track recoveries at the corporate level. To enable corporate-level tracking, beyond the annual information-gathering exercise currently conducted by the Office of Programme Planning, Finance and Budget, additional capacity would be required to establish a dedicated unit for managing fraud risks, including recovery tracking and the development of a centralized platform to consolidate cases, enabling efficient monitoring and reporting.

280. In light of the current liquidity constraints and recent progress on process improvements, the Administration had requested the closure of this recommendation, but the Board did not concur. The Administration will devote its best efforts to addressing the matter within the resource constraints.

281. In paragraph 349 of its report, the Board recommended that the Administration develop clear guidelines to provide more clarity on the criteria adopted to determine, in the context of management evaluation reviews, whether and how managers who have made inappropriate decisions warrant possible actions to enforce accountability.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Second quarter of 2025
<i>Revised target date:</i>	First quarter of 2026

282. Draft standard operating procedures have been developed and are currently undergoing consultations with the relevant entities. Subject to the outcome of this consultation process, the standard operating procedures are expected to be finalized by the first quarter of 2026.

283. In paragraph 354 of its report, the Board recommended that the Administration establish guidelines or standard operating procedures for determining the cost-effectiveness of further action to ascertain the amount of losses, and, subject to the applicable legal framework: (a) for recovering financial losses resulting from established misconduct; and (b) for ensuring that financial losses identified by the Office of Internal Oversight Services or through other investigative processes are duly recovered to the greatest extent possible.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Second quarter of 2026
<i>Revised target date:</i>	No change

284. The Department of Management Strategy, Policy and Compliance is actively coordinating the implementation of this recommendation in close consultation with multiple stakeholders, including other entities involved in the investigation and the tracking and processing of financial recoveries.

285. In paragraph 366 of its report, the Board recommended that the Administration review its existing processes under the current legal framework in cases where the Organization has suffered a financial loss due to possible gross negligence, to enforce accountability, where appropriate.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	Second quarter of 2026
<i>Revised target date:</i>	No change

286. Please refer to the Administration's comments above relating to the recommendation in paragraph 354 of the Board's report for the year ended 31 December 2023.

287. In paragraph 370 of its report, the Board recommended that the Administration continue efforts to strengthen the accountability framework for delegation of authority by enhancing the analytical approach to identify systemic issues hampering the improvement of entities' performance against targets, and make concrete recommendations to entities involved on how to improve their performance against the key performance indicators.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Second quarter of 2025
<i>Revised target date:</i>	Second quarter of 2026

288. The Business Transformation and Accountability Division has continued to enhance targeted monitoring and outreach efforts to support entities in improving their performance. The implementation of response mechanism pilots has contributed to strengthened monitoring across the first and second lines of defence, as reflected in positive performance trends.

289. The Division is now routinely developing new monitoring tests and analytical procedures in response to emerging risks and events. As such, while this recommendation remains valuable, its implementation has evolved into an ongoing practice and is increasingly embedded in standard operations. To close this recommendation formally, the Division will document this continuous improvement approach within a delegation of authority monitoring standard operating procedure, at which point the recommendation will be considered implemented. The standard operating procedure was postponed because of a lack of availability of key staff due to competing priorities and the impact of resource constraints.

290. In paragraph 380 of its report, the Board recommended that the Administration address the high concentration of geographical representation in the resident coordinator/humanitarian coordinator talent pipeline by attracting and nurturing more personnel from programme countries.

<i>Department responsible:</i>	Development Coordination Office
<i>Status:</i>	Closure requested
<i>Priority:</i>	High
<i>Original target date:</i>	Third quarter of 2025
<i>Revised target date:</i>	Not applicable

291. The selection process for the resident coordinator/humanitarian coordinator talent pipeline intake was finalized in July 2025, resulting in the addition of 77 new members and bringing the total to 122. As at 31 July 2025, 60 per cent of pipeline members were from programme countries. With this intake, the number of nationalities represented increased from 30 to 59, a 96 per cent rise. These figures demonstrate that the Administration has effectively addressed concerns regarding the concentration of geographical representation within the resident coordinator/humanitarian coordinator talent pipeline, successfully attracting and nurturing talent from programme countries. The Administration considers this recommendation to be implemented and requests its closure by the Board.

292. In paragraph 392 of its report, the Board recommended that the Administration engage with the United Nations Sustainable Development Group governance to draw attention to and address the gaps in the implementation of the efficiency gains road map in a timely manner.

<i>Department responsible:</i>	Development Coordination Office
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	Fourth quarter of 2025
<i>Revised target date:</i>	No change

293. In its role as secretariat to the Business Innovations Group, the Development Coordination Office has consistently raised concerns regarding implementation deviations in the efficiency road map with the United Nations Sustainable Development Group and will continue to do so. To support timely follow-up and promote transparency, the Office has developed dashboards for business operations strategy and common premises implementation and is in the process of extending this approach to global shared services and the common back office. These tools enable real-time monitoring and support targeted interventions. Furthermore, the Business Innovations Group, with the support of the Development Coordination Office, is actively refining methodologies and governance mechanisms to address deviations and strengthen the overall implementation of the efficiency road map.

294. In paragraph 401 of its report, the Board recommended that the Administration work with the United Nations Sustainable Development Group to strengthen the Group's coordination levy operational guidance to ensure the completeness and accuracy of the contributions subject to levy and that adequate information related to the collection of levies and earmarked contributions is obtained from Group member entities.

<i>Department responsible:</i>	Development Coordination Office
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2025
<i>Revised target date:</i>	No change

295. The Development Coordination Office continues its regular engagement with Member States to raise awareness of the levy, including its application methods and the benefits of applying it at source, commonly referred to as the donor-administered option. With enhanced capacity now in place for outreach, resource mobilization and intergovernmental engagement, the Office is working to improve consistency in the application of the levy across donors and to promote the use of the operational guidance. In addition, the Development Coordination Office maintains active engagement with United Nations Sustainable Development Group members to support levy application in accordance with existing guidance and to encourage use of the updated template.

296. In paragraph 410 of its report, the Board reiterated its recommendation that the Administration closely monitor the ongoing recruitment process of resident coordinators to ensure that the posts of resident coordinator and the key posts at resident coordinator offices are filled in an expeditious manner.

<i>Department responsible:</i>	Development Coordination Office
<i>Status:</i>	Closure requested
<i>Priority:</i>	Medium
<i>Original target date:</i>	Not applicable
<i>Revised target date:</i>	No change

297. As at 1 August 2025, 117 resident coordinator positions – representing 90 per cent of the total – were filled. One position remains vacant, while the remaining 12 are temporarily covered by resident coordinators serving ad interim. This reflects a vacancy rate that is below the average across United Nations system entities. Of the 12 ad interim positions, five are awaiting the arrival of newly appointed coordinators, who will assume their duties upon the conclusion of the incumbents' assignments, and the remaining seven are either pending government clearance or are at various stages of recruitment. This data underscores the Administration's active oversight of the recruitment process, ensuring positions are filled in a timely and effective manner. The Administration considers this recommendation to be implemented and requests its closure by the Board.

298. In paragraph 411 of its report, the Board recommended that the Administration strengthen measures for reducing the early turnover of resident coordinators to ensure the effective performance of the resident coordinator system.

<i>Department responsible:</i>	Development Coordination Office
<i>Status:</i>	Closure requested
<i>Priority:</i>	Medium
<i>Original target date:</i>	Not applicable
<i>Revised target date:</i>	No change

299. The Administration wishes to reaffirm that the instances referred to as early turnover are handled in full compliance with the Organization's established regulatory framework. These actions are conducted in accordance with approved policies and procedures. The Administration considers this recommendation to be implemented and requests its closure by the Board.

300. In paragraph 461 of its report, the Board recommended that the Administration enhance oversight of the management of funds, especially regarding the use of a separate interest-bearing bank account, where available, accounting separately for the project expenditures, inform the third-party auditors of the funds of \$7.83 million and take follow-up actions.

<i>Department responsible:</i>	Office for the Coordination of Humanitarian Affairs
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Original target date:</i>	Second quarter of 2025
<i>Revised target date:</i>	Fourth quarter of 2025

301. The Office for the Coordination of Humanitarian Affairs is in the process of implementing a system check within the One Grant Management System to capture the availability or unavailability of a separate interest-bearing bank account at the time of project proposal submission. An additional check will also be introduced to indicate whether interest was earned at the conclusion of project implementation. Due to competing priorities and limited resources resulting from ongoing austerity measures and prioritization efforts, a six-month extension is required to complete this work.

302. In paragraph 469 of its report, the Board recommended that the Administration continue to verify the eligibility of all project expenditures through third-party audit firms following completion of the projects, especially with regard to the eligibility of the above-mentioned non-project overhead costs, in accordance with the global guidelines for country-based pooled funds.

<i>Department responsible:</i>	Office for the Coordination of Humanitarian Affairs
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2025
<i>Revised target date:</i>	No change

303. Third-party audits to verify the eligibility of relevant project expenditures are under way. Confirmation regarding the eligibility of these expenditures will be provided upon completion of the audit process.

304. In paragraph 477 of its report, the Board recommended that the Administration expand actions to hold accountable partners that do not refund losses due to fraud cases by strengthening arrangements for sharing information with other United Nations agencies about those partners.

<i>Department responsible:</i>	Office for the Coordination of Humanitarian Affairs
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Second quarter of 2025
<i>Revised target date:</i>	Fourth quarter of 2025

305. The Office for the Coordination of Humanitarian Affairs continues to advance efforts to streamline and reinforce mechanisms for sharing information with other United Nations agencies regarding partners that have not refunded losses resulting from fraud. The target date has been revised to allow for further consultations with United Nations agencies.

306. In paragraph 484 of its report, the Board recommended that the Administration review and update the guidance on the sharing of fraud case-related information to provide clear minimum criteria for identifying recipients to ensure the security of sensitive information of the Organization, while recognizing that discretion may be required in certain cases to include additional recipients.

<i>Department responsible:</i>	Office for the Coordination of Humanitarian Affairs
<i>Status:</i>	Closure requested
<i>Priority:</i>	Medium
<i>Original target date:</i>	Second quarter of 2025
<i>Revised target date:</i>	Not applicable

307. The Office for the Coordination of Humanitarian Affairs has revised its guidance on the sharing of information related to fraud cases. The updated guidance note establishes clear minimum criteria for identifying appropriate recipients and includes measures to ensure the confidentiality of shared information. The Administration considers this recommendation to be implemented and requests its closure by the Board.

308. In paragraph 501 of its report, the Board recommended that the Administration ensure that all United Nations Secretariat entities submit ICT projects with a cost of over \$1 million (over a four-year period) to the ICT Steering Committee for approval.

<i>Department responsible:</i>	Office of Information and Communications Technology
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Second quarter of 2025
<i>Revised target date:</i>	Second quarter of 2026

309. The Office of Information and Communications Technology will leverage the ICT strategy implementation tracker to identify projects that may be suitable for review by the Project Review Committee and the ICT Steering Committee. This exercise is expected to yield tangible results and provide a robust basis for closing the recommendation by June 2026.

310. In paragraph 507 of its report, the Board recommended that the Administration ensure that the Office of Information and Communications Technology, in coordination with the Procurement Division and end-user entities, follow up with the contractors to ensure that the discounts due for ICT contracts are collected in full and in a timely manner.

<i>Department responsible:</i>	Office of Information and Communications Technology
<i>Status:</i>	Closure requested
<i>Priority:</i>	High
<i>Original target date:</i>	Second quarter of 2025
<i>Revised target date:</i>	Not applicable

311. The Office of Information and Communications Technology confirms that the final settled amount has been reconciled in the system and the relevant documentation, including written confirmation and account details, has been completed. The Administration has issued a credit note in Umoja, which will be applied against future invoices. Applicable discounts have been applied or settled. The Administration considers this recommendation to be implemented and requests its closure by the Board.

312. In paragraph 518 of its report, the Board recommended that the Administration ensure that the Office of Information and Communications Technology, together with respective entities, updates the cloud strategy in a timely manner to align it with the latest information and communications technology landscape and business requirements, enhances public cloud resource utilization and implements cost-saving measures, as appropriate.

<i>Department responsible:</i>	Office of Information and Communications Technology
<i>Status:</i>	Closure requested
<i>Priority:</i>	High
<i>Original target date:</i>	Fourth quarter of 2024
<i>Revised target date:</i>	Not applicable

313. The Office of Information and Communications Technology has updated and published the cloud strategy following a broad consultative process. The revised strategy – cloud strategy 2.0 – is aligned with the current ICT landscape and evolving business requirements, ensuring the effective utilization of public cloud resources and the implementation of cost-saving measures. Cloud strategy 2.0 introduces a hybrid cloud model that enhances scalability through dynamic resource allocation based on performance, cost and compliance needs. It also promotes operational flexibility by enabling the seamless migration of workloads between private and public cloud environments in response to changing business demands. The Administration considers this recommendation to be implemented and requests its closure by the Board.

314. In paragraph 531 of its report, the Board recommended that the Administration clearly define the scope of ICT security, including key central and local roles and responsibilities in the ICT accountability framework as part of the ICT governance structure, and ensure that they are properly implemented.

<i>Department responsible:</i>	Office of Information and Communications Technology
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Second quarter of 2025
<i>Revised target date:</i>	Fourth quarter of 2025

315. The key roles and responsibilities related to central and local ICT security functions have been incorporated into the ICT accountability framework, which is under review prior to its final approval.

III. Status of implementation of recommendations on the Umoja system

316. In annex II to its report on the United Nations for the year ended 31 December 2024, the Board provided a summary of the status of implementation of its 17 extant recommendations on the Umoja system relating to prior periods. Of the 17 extant recommendations, 12 (70 per cent) had been implemented, 3 (18 per cent) had been overtaken by events and the other 2 (12 per cent) were under implementation.

317. Table 5 presents a summary of the overall situation as of August 2025 with respect to the two recommendations that were determined by the Board to be under implementation as of December 2024. Of those outstanding recommendations, one is scheduled to be implemented in 2025 and the other in 2026.

Table 5

Status of implementation of recommendations for prior periods on the Umoja system considered not to have been fully implemented in annex II to the report of the Board of Auditors on the United Nations for the year ended 31 December 2024

(Number of recommendations)

<i>Department responsible</i>	<i>Total</i>	<i>Closure requested</i>	<i>Not accepted</i>	<i>Under implementation</i>	<i>Target date set</i>	<i>No target date</i>
Enterprise Resource Planning Solution Division	2	–	–	2	2	–
Total	2	–	–	2	2	–

Detailed information on implementation status

Eighth annual progress report of the Board of Auditors on the implementation of the United Nations enterprise resource planning system¹⁰

318. In paragraph 83 of its report, the Board recommended that the Administration review the master data for banking details to identify and correct cases, where necessary, of multiple vendors associated with the same bank account.

Department responsible: Enterprise Resource Planning Solution Division

Status: Under implementation

Priority: High

Original target date: Fourth quarter of 2022

Revised target date: Fourth quarter of 2026

319. The Administration has made substantial progress in reviewing business partner records that share bank accounts. Data from multiple sources in Umoja have been extracted and integrated to provide a comprehensive view of all elements relevant to assessing the legitimacy of shared bank accounts among specific business partners. The Administration is taking steps to block records where there is no valid justification for sharing bank accounts. As part of this exercise, the Administration also identifies and blocks inactive business partners, regardless of whether they share bank accounts. The extended timeline to implement this recommendation reflects the inherent complexity of the recommendation and its solution, which spans several teams. The Administration remains committed to strengthening data integrity and expects to complete the review and related documentation by 2026.

Ninth annual progress report of the Board of Auditors on the implementation of the United Nations enterprise resource planning system¹¹

320. In paragraph 120 of its report, the Board recommended that the Administration put in place a strong internal control mechanism to ensure the deprovisioning of user roles in Umoja at the time of separation of staff and appropriate updating of the user roles in Umoja when they leave their functions.

¹⁰ A/74/153.

¹¹ A/75/159.

<i>Department responsible:</i>	Enterprise Resource Planning Solution Division
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Original target date:</i>	Fourth quarter of 2022
<i>Revised target date:</i>	Fourth quarter of 2025

321. The Administration has successfully completed the comprehensive testing and verification of the proposed solution for automatically deprovisioning separated users. The Enterprise Resource Planning Solution Division is finalizing change management protocols and coordinating implementation communications with key stakeholders and affected parties. The extended timeline to implement this recommendation reflects the inherent complexity of the recommendation and its solution, which spans multiple functional areas and several teams.
