

General Assembly

Distr.: General
10 February 2026

Original: English

Eightieth session

Agenda items 133 (b) and 148

Financial reports and audited financial statements, and reports of the Board of Auditors: United Nations peacekeeping operations

Administrative and budgetary aspects of the financing of the United Nations peacekeeping operations

Implementation of the recommendations of the Board of Auditors concerning United Nations peacekeeping operations for the financial period ended 30 June 2025

Report of the Secretary-General

Summary

The present report provides information in response to the recommendations of the Board of Auditors contained in its report on United Nations peacekeeping operations for the 12-month period from 1 July 2024 to 30 June 2025 ([A/80/5 \(Vol. II\)](#), chap. II). The report is submitted in accordance with paragraph 7 of General Assembly resolution [48/216 B](#), in which the Assembly requested the Secretary-General, at the same time as the recommendations of the Board of Auditors are submitted to the Assembly, to provide it with his responses and to indicate measures that will be taken to implement those recommendations, with appropriate timetables.

The Administration has concurred with the Board's recommendations and its relevant comments have been duly reflected in the report of the Board. The present report provides additional comments from the Administration, where appropriate, and information on the status of implementation, the department responsible, the estimated completion date and the priority for each recommendation contained in the report of the Board. In addition, the report contains updated information on the status of implementation of the recommendations of the Board relating to the prior periods that were reported by the Board, in annex II to its report, as not having been fully implemented.

I. Introduction

1. In its resolution [48/216](#) B, the General Assembly requested the Secretary-General, at the same time as the recommendations of the Board of Auditors are submitted to the Assembly, to provide it with his responses and to indicate measures that will be taken to implement those recommendations, with appropriate timetables. The present report is submitted in response to the recommendations of the Board contained in its report on the United Nations peacekeeping operations for the 12-month period ended 30 June 2025 ([A/80/5 \(Vol. II\)](#), chap. II).

2. In preparing the present report, account was taken of the provisions of the following documents:

(a) General Assembly resolution [52/212](#) B, in particular paragraphs 2 to 5 thereof, and the note by the Secretary-General transmitting the proposals of the Board for improving the implementation of its recommendations approved by the Assembly ([A/52/753](#), annex);

(b) Paragraph 6 of Assembly resolution [79/245](#) B, in which the Assembly requested the Secretary-General to ensure the full implementation of the recommendations of the Board of Auditors and the related recommendations of the Advisory Committee on Administrative and Budgetary Questions in a prompt and timely manner;

(c) Paragraph 7 of Assembly resolution [79/245](#) B, in which the Assembly requested the Secretary-General to continue to indicate an expected time frame for the implementation of the recommendations of the Board of Auditors and the priorities for their implementation, including the office holders to be held accountable and measures taken in that regard;

(d) Paragraph 8 of Assembly resolution [79/245](#) B, in which the Assembly requested the Secretary-General to provide, in his next report on the implementation of the recommendations of the Board of Auditors concerning United Nations peacekeeping operations, a full explanation for the delays in the implementation of all outstanding recommendations of the Board, the root causes of the recurring issues and the measures to be taken.

3. With regard to prioritization, the Administration noted that the Board had categorized 14 of the 19 recommendations for the period ended 30 June 2025 as “main recommendations”. While all the accepted recommendations of the Board will be implemented in a timely manner, the main recommendations are considered to be of the highest priority.

4. The status of implementation of the new recommendations as of February 2026 is summarized in tables 1 and 2.

5. As indicated in table 1, the 14 main recommendations issued by the Board remained under implementation as of February 2026; of those, 6 have been targeted for implementation before the end of 2026 and 8 before the end of 2027.

Table 1
Status of implementation of the main recommendations of the Board of Auditors as of February 2026

(Number of recommendations)

<i>Department responsible</i>	<i>Total</i>	<i>Not accepted</i>	<i>Closure requested</i>	<i>Under implementation</i>	<i>Target date set</i>	<i>No target date</i>
Department of Management Strategy, Policy and Compliance	4	–	–	4	4	–
Department of Operational Support	4	–	–	4	4	–
Department of Peace Operations	4	–	–	4	4	–
Multiple entities	2	–	–	2	2	–
Total	14	–	–	14	14	–

6. As indicated in table 2, all 19 new recommendations issued by the Board were under implementation as of February 2026; of those, 8 have been targeted for implementation before the end of 2026 and 11 before the end of 2027.

Table 2
Status of implementation of all recommendations (including main ones) of the Board of Auditors as of February 2026

(Number of recommendations)

<i>Department responsible</i>	<i>Total</i>	<i>Not accepted</i>	<i>Closure requested</i>	<i>Under implementation</i>	<i>Target date set</i>	<i>No target date</i>

Department of Peace Operations	5	–	–	5	5	–
Multiple entities	5	–	–	5	5	–
Total	19	–	–	19	19	–

II. Implementation of the recommendations contained in the report of the Board of Auditors

7. The information requested by the General Assembly on the status of implementation of recommendations contained in the report of the Board of Auditors for the financial period ended 30 June 2025 ([A/80/5 \(Vol. II\)](#), chap. II) is set out below. As indicated in the summary of the present report, most of the Administration's comments have already been included in the report of the Board. Accordingly, additional comments are provided only where deemed necessary.

8. **In paragraph 38 of its report, the Board recommended that the Administration formalize the cash write-off process and provide guidance to the entities concerned to ensure that cash losses are recognized in the financial statements within the financial year of the loss, regardless of the status of the investigation, in accordance with International Public Sector Accounting Standards (IPSAS) 1: Presentation of financial statements and IPSAS 19: Provisions, contingent liabilities and contingent assets. In the case that an investigation remains in process, this shall be disclosed in the schedule of write-**

offs sent in accordance with regulation 6.5 of the Financial Regulations and Rules of the United Nations.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: High

Target date: Fourth quarter of 2026

9. The Administration will update closing instructions, perform yearly reconciliation of submitted cash counts to the Umoja cash journal and update instructions related to accounting for and reporting of cash losses under the Finance Knowledge Gateway.

10. In paragraph 61 of its report, the Board recommended that the Administration regularly update the associated cost rates applied to property, plant and equipment and inventories and formalize the review process.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: High

Target date: Second quarter of 2026

11. The Administration is working on a comprehensive review of directly attributable costs to bring the assets to their intended locations and condition and update the associated cost percentages at the individual plant level, where relevant.

12. In paragraph 77 of its report, the Board recommended that the Administration: (a) specify for each case, in the presumptive fraud reporting, the type of possible loss of resources; and (b) provide training materials to stakeholders, notably in the field, to facilitate and improve the financial estimation of fraud cases.

Departments responsible: Department of Management Strategy, Policy and Compliance and Office of Internal Oversight Services

Status: Under implementation

Priority: High

Target date: Second quarter of 2027

13. The full implementation of this recommendation is dependent on the approval of additional resources. The Administration plans to: (a) adapt the reporting tools to include and refine the different types of loss of United Nations resources; (b) continue to deliver an annual session on the ALD Connect online platform, working in close collaboration with the Office of Internal Oversight Services and the Office of Programme Planning, Finance and Budget, for conduct and discipline teams in order to provide guidance to missions on fraud reporting, especially for fraud focal points and finance officers in the field (information on the recovery of financial losses suffered by the Organization as a result of misconduct by staff members can be found in the report on the practice of the Secretary-General in disciplinary matters and cases of possible criminal behaviour, from 1 January to 31 December 2024 ([A/80/533](#)));

(c) hold workshops jointly with the Office of Internal Oversight Services to clarify definitions and methodology in order to facilitate and improve financial loss estimates; and (d) align templates for reporting to collect data on the type of possible loss.

14. In paragraph 88 of its report, the Board recommended that the Administration centrally review and harmonize the standard fuel consumption units by vehicle brand and model within the electronic fuel management system (eFMS-2) to limit potential fraud risks with respect to fuel in the field.

Department responsible: Department of Operational Support

Status: Under implementation

Priority: High

Target date: Fourth quarter of 2027

15. The Administration will make arrangements to review and analyse standard fuel consumption units for vehicles and establish standard fuel consumption for each model of vehicle.

16. In paragraph 110 of its report, the Board recommended that the Administration develop guidance on the reallocation of purchase orders in the event of a mission's liquidation, on the basis of the experience gained regarding the United Nations Multidimensional Integrated Stabilization Mission in Mali (MINUSMA).

Department responsible: Department of Operational Support

Status: Under implementation

Priority: High

Target date: Fourth quarter of 2026

17. The United Nations Logistics Base at Brindisi, Italy, will develop and formalize an internal standard operating procedure providing guidance on the reallocation of purchase orders in the context of mission liquidation. The standard operating procedure will be based on lessons learned from the MINUSMA purchase order diversion exercise and will define procedures for the early identification of purchase order status, formal confirmation by purchase order-owning missions of continued operational requirements, and standardized decision pathways for reallocation, diversion or disposal. The standard operating procedure will further delineate roles and responsibilities among all relevant stakeholders, including purchase order-owning and -acquiring missions, to ensure the timely and demand-driven redistribution of purchase orders. Furthermore, prior to each liquidation, relevant guidance will be communicated to the liquidating entity.

18. In paragraph 121 of its report, the Board recommended that the Administration strengthen its control over transferred assets, in particular by initiating insurance claims promptly in the event of losses in transit and by ensuring that assets received by missions are included in their budget preparations, to the extent possible, taking into consideration budget formulation times.

Departments responsible: United Nations Multidimensional Integrated Stabilization Mission in the Central African Republic (MINUSCA), United Nations Interim Security Force for Abyei, United Nations Mission for the Referendum in Western Sahara, United Nations Disengagement Observer Force and Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: High

Target date: Second quarter of 2026

19. The Office of Programme Planning, Finance and Budget is formally reviewing the proposed budgets for 2026/27. During the review process, the Office will verify the transfer of assets from liquidated and closed missions to ensure that the received assets have been included as part of the on-hand inventory in respect of new acquisitions of equipment.

20. In paragraph 175 of its report, the Board recommended that the Secretariat, in full consultation with troop- and police-contributing countries, propose a cross-cutting approach to energy overproduction within contingents.

Department responsible: Department of Operational Support

Status: Under implementation

Priority: High

Target date: Second quarter of 2027

21. The Administration will initiate a project to rationalize the holding of contingent-owned equipment generators across all deployed missions. The decision to conduct the project was made following the meeting of the Working Group on Contingent-Owned Equipment that was held in January 2026, in which an issue paper on reduced reimbursement for generators was presented.

22. In paragraph 199 of its report, the Board recommended that the Secretariat propose options to Member States to better address the impact of the non-payment of contributions.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: High

Target date: Fourth quarter of 2026

23. The Administration will address this recommendation in the next financial situation report and in the subsequent performance report.

24. In paragraph 235 of its report, the Board recommended that the Secretariat accelerate the development and implementation of a strategic organizational adaptability approach across the Secretariat, along the lines called for by the Advisory Committee on Administrative and Budgetary Questions (A/78/7, para. 84), in order to enhance the management of liquidity constraints and

mitigate their negative impact on the workforce, while relying on the existing human resources planning tools and policies.

Department responsible: Department of Management Strategy, Policy and Compliance
Status: Under implementation
Priority: Medium
Target date: Second quarter of 2027

25. The full implementation of this recommendation is subject to the availability of the necessary resources. The Administration will develop a strategic organizational adaptability approach for implementation across the Secretariat related to reviewing entities' organizational structures and workforce modalities to ensure that they are best aligned with efficient mandate delivery and facilitate the achievement of human resources mandates given by the General Assembly, including rejuvenation and geographical representation. The approach will allow for responsiveness to changing operational contexts, evolving mandates and variability in funding.

26. In paragraph 243 of its report, the Board recommended that the Secretariat, while respecting the delegated authorities of each entity, reinforce and expand central procurement initiatives by leveraging the expertise and holistic perspective of central procurement to maximize efficiency and impact across missions.

Department responsible: Department of Operational Support
Status: Under implementation
Priority: High
Target date: Second quarter of 2027

27. The Administration will develop an action plan leveraging its integrated supply chain components encompassing procurement, logistics, enabling and outreach to holistically review opportunities for efficiencies with a view to maximizing impact across missions.

28. In paragraph 260 of its report, the Board recommended that the Administration require missions to ensure the consistent application of the 2018 guidelines of the resource stewardship executive group (ref. 2018.13), in order to efficiently address liquidity management issues. This should be achieved by holding meetings at the required frequency and including all relevant mission uniformed and substantive components, with the finance and budget section/unit acting as secretariat.

Departments responsible: Department of Management Strategy, Policy and Compliance and Department of Peace Operations
Status: Under implementation
Priority: High
Target date: Second quarter of 2026

29. The Administration will review and revise the guidelines of the resource stewardship executive group and require their consistent application by missions in order to efficiently address liquidity management issues.

30. In paragraph 285 of its report, the Board recommended that all missions immediately update their enterprise risk registers to reflect the risk of a prolonged liquidity situation, with concrete mitigation strategies, thresholds for action and clear accountability lines.

Departments responsible: All peacekeeping missions

Status: Under implementation

Priority: Medium

Target date: Fourth quarter of 2026

31. Peacekeeping missions are at different stages of implementing this recommendation. For example, the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo (MONUSCO) already reflected the risk of a prolonged liquidity situation in its 2025 update of the Mission's risk register, which was further endorsed by the resilience and risk management committee on 27 November 2025. The United Nations Peacekeeping Force in Cyprus held its risk management committee meeting on 28 November 2025 and endorsed the proposed changes under a budget allocation relating to liquidity and a newly developed risk response and treatment plan to address liquidity-related risks. The Business Transformation and Accountability Division in the Department of Management Strategy, Policy and Compliance will provide guidance and support to MINUSCA, the United Nations Mission in South Sudan (UNMISS) and the United Nations Disengagement Observer Force for updating their enterprise risk registers to reflect the risk of a prolonged liquidity situation, with concrete mitigation strategies, thresholds for action and clear accountability lines by the second quarter of 2026.

32. In paragraph 302 of its report, the Board recommended that training sessions be scaled up and institutionalized for as long as the liquidity situation persists, in order to establish a cash management skill set in each peacekeeping mission, including senior management from all three components (substantive, military, and mission support). Such sessions would also enhance coherence and cohesion in the Organization and improve understanding of the stakes of cash management.

Departments responsible: Department of Management Strategy, Policy and Compliance and Department of Operational Support

Status: Under implementation

Priority: Medium

Target date: Fourth quarter of 2026

33. The Administration will work on the creation of online computer-based training explaining how cash and budget/funds management work together, as well as a series of online guidance documents to be published on the Knowledge Gateway.

34. In paragraph 321 of its report, the Board recommended that the Secretariat revise the Headquarters community violence reduction standard operating procedure, by including a clear and unified definition and strategic framework for community violence reduction activities, to prevent conceptual dilution and overlap with other stabilization or development initiatives.

Department responsible: Department of Peace Operations
Status: Under implementation
Priority: High
Target date: Fourth quarter of 2027

35. The Department of Peace Operations will revise the standard operating procedure on community violence reduction, following the finalization of the community violence reduction 2.0 initiative.

36. In paragraph 369 of its report, the Board recommended that the Secretariat review the implications of the new human rights due diligence framework policy for disarmament, demobilization and reintegration/community violence reduction activities and issue related guidance, if necessary.

Departments responsible: Department of Peace Operations and Office of the United Nations High Commissioner for Human Rights
Status: Under implementation
Priority: Medium
Target date: Fourth quarter of 2027

37. The Administration will follow the pathway of the 24-month initial implementation phase of the new human rights due diligence policy framework, with detailed steps to be agreed between the Department of Peace Operations and the Office of the United Nations High Commissioner for Human Rights.

38. In paragraph 378 of its report, the Board recommended that the Secretariat engage through the Disarmament, Demobilization and Reintegration Section in a partnership-based reflection on the definition of a common data set, based on the experience from the MINUSMA dashboard, with a view to informing a global dashboard of disarmament, demobilization and reintegration and community violence reduction activities.

Department responsible: Department of Peace Operations
Status: Under implementation
Priority: High
Target date: Fourth quarter of 2027

39. The Secretariat will complete the development of databases in MINUSCA, MONUSCO and UNMISS, as part of the eventual establishment of a common data set and global dashboard.

40. In paragraph 382 of its report, the Board recommended that the Disarmament, Demobilization and Reintegration Section promote the development of outcome indicators, data collection and outcome-focused monitoring in the missions.

Department responsible: Department of Peace Operations
Status: Under implementation
Priority: High
Target date: Fourth quarter of 2027

41. The Department of Peace Operations will convene a series of webinars with relevant missions to promote the existing monitoring and evaluation guidance for disarmament, demobilization and reintegration, as part of a result-based management approach and with a particular focus on impact and outcome measurement, including a guide on how to develop indicators. The Disarmament, Demobilization and Reintegration Section will also hold a dedicated meeting with the Integrated Disarmament, Demobilization and Reintegration Training Group to ensure further integration of the monitoring and evaluation sessions into the curricula and a stronger emphasis, where necessary, on ways to measure outcomes.

42. In paragraph 389 of its report, the Board recommended that Headquarters develop a toolkit of communication products and key messages for the missions, based on the impacts of disarmament, demobilization and reintegration and community violence reduction projects, targeting donors, national authorities and the local population.

Department responsible: Department of Peace Operations
Status: Under implementation
Priority: Medium
Target date: Fourth quarter of 2027

43. The Administration will develop a toolkit, leveraging material from missions and providing a flexible set of sample key messages and/or a methodology for their development in a conflict-sensitive and context-specific way.

44. In paragraph 409 of its report, the Board recommended that the Secretariat, through the Disarmament, Demobilization and Reintegration Section, offer support to MONUSCO and MINUSCA in reviewing existing mission-specific standard operating procedures on weapons and ammunition management, in order to strengthen disarmament, demobilization and reintegration-related weapons and ammunition management in compliance with the Headquarters standard operating procedure on weapons and ammunition management, and to develop standardized indicators.

Department responsible: Department of Peace Operations
Status: Under implementation
Priority: High
Target date: Fourth quarter of 2027

45. The Administration will work with MONUSCO and MINUSCA to identify the requisite support in reviewing their standard operating procedures and ensuring they are aligned with the umbrella standard operating procedures at Headquarters.

III. Implementation of the recommendations contained in the reports of the Board of Auditors concerning United Nations peacekeeping operations for prior financial periods

46. In paragraph 8 of its resolution [79/245](#) B, the General Assembly requested that the Secretary-General provide, in his next report on the implementation of the recommendations of the Board of Auditors concerning United Nations peacekeeping operations, a full explanation for the delays in the implementation of all outstanding recommendations of the Board, the root causes of the recurring issues and the measures to be taken. Such explanations have been included in the Administration's detailed comments below relating to the relevant recommendations.

47. In annex II to its report on United Nations peacekeeping operations for the 12-month period from 1 July 2024 to 30 June 2025 ([A/80/5](#) (Vol. II), chap. II), the Board provided a summary of the status of implementation of its 73 extant recommendations issued during the seven prior financial periods up to 30 June 2024. Of the 73 extant recommendations, 36 (49.3 per cent) were assessed as "implemented", 1 (1.4 per cent) as "overtaken by events" and 36 (49.3 per cent) as "under implementation". The Board also noted in its report that 35 (48 per cent) of the 73 extant recommendations had been issued in its report for the 2023/24 financial period, which had been endorsed by the General Assembly on 30 June 2025.

48. As at 30 June 2025, the overall status of implementation of all the Board's recommendations issued since the 2017/18 financial period up until the 2023/24 financial period (that is, over the seven prior financial periods) is shown in table 3.

Table 3

Overall status of implementation of the recommendations of the Board of Auditors from seven prior financial periods up to 30 June 2024

<i>Financial period</i>	<i>Report symbol</i>	<i>Total</i>	<i>Fully implemented</i>	<i>Under implementation</i>	<i>Overtaken by events</i>
2017/18	A/73/5 (Vol. II)	52	40 (77%)	–	12 (23%)
2018/19	A/74/5 (Vol. II)	43	41 (95%)	–	2 (5%)
2019/20	A/75/5 (Vol. II)	30	26 (87%)	1 (3%)	3 (10%)
2020/21	A/76/5 (Vol. II)	10	9 (80%)	–	1 (10%)
2021/22	A/77/5 (Vol. II)	20	12 (60%)	8 (40%)	–
2022/23	A/78/5 (Vol. II)	26	16 (62%)	8 (30%)	2 (8%)
2023/24	A/79/5 (Vol. II)	35	16 (46%)	19 (54%)	–
Totals:		216	160 (74%)	36 (17%)	20 (9%)

49. Table 4 provides a detailed analysis of the status of implementation, as of February 2026, of the 36 extant recommendations from the prior periods that had been assessed by the Board as being "under implementation".

Table 4
Status of implementation of the outstanding recommendations of the Board of Auditors from prior periods as of February 2026

(Number of recommendations)

<i>Department responsible</i>	<i>Total</i>	<i>Closure requested</i>	<i>Under implementation</i>	<i>Target date set</i>	<i>No target date</i>
Department of Management Strategy, Policy and Compliance	13	—	13	13	—
Department of Operational Support	8	—	8	8	—
Department of Peace Operations	1	1	—	—	—
Multiple entities	14	1	13	13	—
Total	36	2	34	34	—

50. Of the 36 recommendations that were assessed by the Board as being under implementation, the Administration has requested the closure of 2. As of February 2026, the remaining 34 were under implementation, of which 31 are targeted for implementation before the end of 2026 and 3 in 2027.

A. Recommendations contained in the report of the Board of Auditors for the 12-month period ended 30 June 2020 (A/75/5 (Vol. II), chap. II)

51. In paragraph 68 of its report, the Board recommended that the Administration determine the support account share of after-service health insurance expenditure on the basis of actual costs incurred within peacekeeping operations.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Initial target date:</i>	Fourth quarter of 2021
<i>Revised target date:</i>	Second quarter of 2026

52. The General Assembly prescribed pay-as-you-go financing of after-service health insurance, which funds the benefit as it is utilized after staff members retire rather than as the benefit is earned. Determination of the support account share of after-service health insurance based on the actual costs incurred within peacekeeping operations would require the Assembly to approve a change from pay-as-you-go to pay-as-you-accrue financing of after-service health insurance benefits similar to the manner of funding pension benefits. The pay-as-you-go method does not capture costs as incurred during the active career of peacekeeping staff. Under the pay-as-you-go financing method, the total annual cost of after-service health insurance for all enrolled retirees is apportioned to the support account on the basis of the proportion of retirees who incurred a post funded by peacekeeping operations at retirement compared with the total number of all after-service health insurance participants. This ratio changes over time on the basis of the different rates of retirements of staff on posts funded by peacekeeping operations, the regular budget and extrabudgetary resources.

53. The considerable impact that the recent closure and downsizing of peacekeeping missions has had and will continue to have on separation and retirement rates requires detailed reviews, including external actuarial analyses. Additional review continues to be required during 2026, in consideration of the expected further impact that the recent UN80 Initiative measures will have on the incidence and pattern of projected separations and retirements, the resulting effect on the proportion of total after-service health insurance participants emanating from peacekeeping operations and the related impact on the short-term and longer-term apportionment of after-service health insurance costs.

B. Recommendations contained in the report of the Board of Auditors for the 12-month period ended 30 June 2022 (A/77/5 (Vol. II), chap. II)

54. In paragraph 75 of its report, the Board recommended that the Administration provide, with a view to building a more consensual, sound and practical basis for risk-taking in peacekeeping operations, the appropriate elements to fuel a strategic discussion at the level of the legislative bodies, not excluding the issuance of a peacekeeping risk appetite statement and the revision of the 2011 risk management policy.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Initial target date:</i>	Fourth quarter of 2024
<i>Revised target date:</i>	Fourth quarter of 2026

55. Please refer to number 9 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments. The delay in the implementation of this recommendation was due to the required and ongoing consultations with subject matter experts which were held at the Risk Management Forum of the High-level Committee on Management. The Committee endorsed system-wide guidelines on risk appetite statements in 2025, and the United Nations Secretariat is in the process of developing a peacekeeping risk appetite statement.

56. In paragraph 76 of its report, the Board recommended that the Administration progressively develop mechanisms to define acceptable risk-taking at the level of peacekeeping missions and experiment with ways to better incentivize and reward it.

<i>Departments responsible:</i>	Department of Management Strategy, Policy and Compliance and all peacekeeping missions
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Initial target date:</i>	Fourth quarter of 2024
<i>Revised target date:</i>	Second quarter of 2026

57. Please refer to number 10 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments. The delay in the implementation of this recommendation was due to the complexity of developing mechanisms to define acceptable risk-taking at the level of peacekeeping missions. The development of a

peacekeeping risk appetite statement is currently in progress following the issuance of the High-level Committee on Management guidelines on risk appetite statements in 2025.

58. In paragraph 139 of its report, the Board recommended that the Administration clarify the roles of the first and second lines of defence in the management of risks in peacekeeping operations, taking concrete steps to increase their empowerment, involvement and accountability, and formalizing in particular the participation of the Department of Peace Operations to the second line of defence.

Departments responsible: Department of Management Strategy, Policy and Compliance and Department of Peace Operations

Status: Under implementation

Priority: High

Initial target date: First quarter of 2024

Revised target date: Fourth quarter of 2026

59. Please refer to number 11 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments. The delay in the implementation of this recommendation is due to the ongoing consultations with key stakeholders during the process of revising the 2011 enterprise risk management policy, aimed at ensuring alignment among stakeholders and clarification of the roles and responsibilities of the first and second lines of defence.

60. In paragraph 168 of its report, the Board recommended that the Administration assign the responsibility of Chief Risk Officer to an existing senior executive in each entity, at the department, missions and service centres levels.

Departments responsible: Department of Management Strategy, Policy and Compliance, Department of Peace Operations and all peacekeeping missions

Status: Under implementation

Priority: High

Initial target date: Fourth quarter of 2024

Revised target date: Fourth quarter of 2026

61. Please refer to number 12 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments. The delay in the implementation of this recommendation is due to ongoing consultations regarding the definition of the roles and functions of Chief Risk Officer in each entity, as they will be set out in the revised enterprise risk management policy.

62. In paragraph 222 of its report, the Board recommended that the Administration issue a standard operating procedure for cross-borrowing starting with the cash shortfall identification and ending with the loan movement in Umoja. This standard operating procedure shall also include a template note with all relevant information for the approval. Finally, the standard operating procedure should provide that the heads of missions affected are informed.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Initial target date:</i>	Second quarter of 2023
<i>Revised target date:</i>	Second quarter of 2026

63. Please refer to number 15 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments. The delay in the implementation of this recommendation is due to the need for multiple levels of review and revision of the draft standard operating procedure on cross-borrowing to reflect current liquidity management practices for peacekeeping operations and ensure alignment with liquidity management processes for the regular budget.

64. In paragraph 274 of its report, the Board recommended that the Administration formalize a policy document for the actuarial valuation of employee benefits that gives an overview of the process and related internal controls. In particular, the policy should describe and document the significant decisions and assumptions to be included in the employee benefits valuation.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	High
<i>Initial target date:</i>	Fourth quarter of 2024
<i>Revised target date:</i>	Fourth quarter of 2026

65. Please refer to number 16 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments. The finalization and release of the policy document have been particularly challenging due to the need to review and reconsider many policy elements that have an impact on the actuarial assumptions. The Administration is reviewing and improving the processes and related controls applicable to the actuarial valuation census data extraction and aims to formalize them in a policy document that will support the Organization's ability to remain adaptable to shifting priorities, such as the UN80 Initiative and changes to apportionment rates.

66. In paragraph 285 of its report, the Board recommended that the Administration systematically document the review and the update of volume II employee benefits actuarial assumptions, providing appropriate evidence as necessary, to ensure their reasonableness before using them in the valuation.

<i>Department responsible:</i>	Department of Management Strategy, Policy and Compliance
<i>Status:</i>	Under implementation
<i>Priority:</i>	Medium
<i>Initial target date:</i>	Fourth quarter of 2024
<i>Revised target date:</i>	Fourth quarter of 2026

67. Please refer to number 17 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments. The Administration is actively working to implement

the current recommendation in conjunction with the actions outlined in the recommendation in paragraph 274 of [A/77/5 \(Vol. II\)](#). All relevant actuarial assumptions are comprehensively presented within the Organization's policies and assumptions paper. These assumptions are further supported and validated by the actuary's letter provided at the time of the annual valuation. Management has communicated to the Board that there is significant overlap between this recommendation and the recommendation in paragraph 274 of [A/77/5 \(Vol. II\)](#). For that reason, the Administration requested the closure of this recommendation, but the Board indicated that both recommendations would be closed together once all related matters were addressed.

68. In paragraph 311 of its report, the Board recommended that the Administration conduct at least annually a qualitative review of all Umoja user accounts and roles granted in the Department of Management Strategy, Policy and Compliance. This review should include making the necessary modifications and deprovisioning user accounts to avoid having any active accounts with legacy privileges.

Departments responsible: Enterprise Resource Planning Solution Division and Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: Medium

Initial target date: First quarter of 2024

Revised target date: Second quarter of 2026

69. Please refer to number 18 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments. The Enterprise Resource Planning Solution Division developed the necessary programme and has also created the related job aid. The next step is for the user access functional sub-group to assess usability and suggest required modifications, if any.

C. Recommendations contained in the report of the Board of Auditors for the 12-month period ended 30 June 2023 ([A/78/5 \(Vol. II\)](#), chap. II)

70. In paragraph 173 of its report, the Board recommended that the Administration streamline and improve the quality of the data used in accountability reports produced as part of the results-based budgeting.

Departments responsible: Department of Management Strategy, Policy and Compliance, Department of Peace Operations and all peacekeeping missions

Status: Under implementation

Priority: High

Initial target date: Fourth quarter of 2025

Revised target date: Second quarter of 2026

71. Please refer to number 24 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments and the Board's assessment. Since the Board indicated that it would assess the results in the new format for budgets that will be presented to

the General Assembly during the second resumed part of its eightieth session, the target date has been revised to the second quarter of 2026.

72. In paragraph 304 of its report, the Board recommended that the Administration review and adjust existing senior mission leadership mechanisms, in line with the revised Policy on Integrated Assessment and Planning, to enhance their effectiveness in the delivery of their core integration and strategic management functions.

Department responsible: Department of Peace Operations

Status: Closure requested

Priority: High

Initial target date: Fourth quarter of 2025

Revised target date: Not applicable

73. Please refer to number 28 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

74. In paragraph 365 of its report, the Board recommended that the Administration update the information on signature authority with the missions to ensure that the personnel registered correspond to the operational needs.

Departments responsible: Department of Management Strategy, Policy and Compliance and all peacekeeping missions

Status: Closure requested

Priority: High

Initial target date: Second quarter of 2024

Revised target date: Not applicable

75. The Administration requests the closure of this recommendation by the Board. The United Nations Treasury has completed the reconciliation of bank signatories between the United Nations records, the United Nations offices and the banks. As this is an ongoing exercise, every time there is a change in bank signatories, there will be a time gap between when action is taken by the United Nations Treasury and when the action is confirmed and completed by the bank. Many countries are continuously enhancing their "know your customer" regulations, leading to more requirements when adding bank signatories. This increases the time required to clear the proposed bank signatories and add them to the banks' records. It is important to note there are several mechanisms at the United Nations that prevent bank signatories from becoming outdated in the system, such as setting the delegation of authority expiration for bank signatories to a maximum of two years, which forces the local office to review the role of each bank signatory. Monitoring the delegation of authority for separated or retired staff triggers the removal of bank signatory authority for such staff and the notification to the banks about the removal. These measures are further enhanced with the just-in-time funding of the United Nations bank accounts, which ensures that there are minimal balances in the United Nations accounts globally that could be subject to fraud.

76. In paragraph 394 of its report, the Board recommended that the Administration include in the policy document mentioned in chapter II, paragraph 274, of [A/77/5 \(Vol. II\)](#): (a) an analysis of the possibility of differentiating the withdrawal and retirement rates at the time of retirement by

participant status (international versus national); (b) a study to determine the historical rate of participants in after-service health insurance plans who leave the plan after retirement; and (c) an option that the valuation method for the full valuation be revised in the light of the results of these analyses.

Department responsible: Department of Management Strategy, Policy and Compliance
Status: Under implementation
Priority: High
Initial target date: Fourth quarter of 2024
Revised target date: Fourth quarter of 2026

77. Please refer to number 32 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

78. In paragraph 418 of its report, the Board recommended that the Administration establish in a formal document the process for determining the peacekeeping operations' shares of the various after-service health insurance medical plans, specifying in particular the internal controls to be implemented.

Department responsible: Department of Management Strategy, Policy and Compliance
Status: Under implementation
Priority: High
Initial target date: Fourth quarter of 2024
Revised target date: Third quarter of 2026

79. Please refer to number 33 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments. The simulation of the distribution of health insurance costs is conducted once a year as part of the health insurance annual renewal procedure. The updated process will be utilized between March and April 2026. Related internal control elements for the initiation of updated rates and subsequent monitoring controls will also be put into place during the first half of the year, with finalization of the related formal documentation planned for completion during the third quarter of 2026.

80. In paragraph 429 of its report, the Board recommended that the Administration establish a standard operating procedure for the credit returns to Member States that provides an overview of the process and the related internal controls.

Department responsible: Department of Management Strategy, Policy and Compliance
Status: Under implementation
Priority: High
Initial target date: Third quarter of 2024
Revised target date: Second quarter of 2026

81. Please refer to number 34 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comment.

82. In paragraph 454 of its report, the Board recommended that the Administration review the cost-recovery accumulated surpluses of UNMISS, the United Nations Support Office in Somalia, MINUSCA, MONUSCO and the United Nations Interim Security Force for Abyei and make the necessary adjustments.

Departments responsible: Department of Management Strategy, Policy and Compliance, UNMISS, the United Nations Support Office in Somalia, MINUSCA, MONUSCO and United Nations Interim Security Force for Abyei

Status: Under implementation

Priority: High

Initial target date: Second quarter of 2025

Revised target date: Third quarter of 2026

83. Please refer to number 35 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments. The Administration has reviewed cost-recovery balances from 2015 to 2023, taken necessary actions to reclassify and made returns to Member States, where appropriate. The Administration is continuing to collaborate closely with missions.

84. In paragraph 485 of its report, the Board recommended that the Administration complete its review of the fuel category strategy in a timely manner to adapt it to various challenges, including by exploring additional contract tools and operating models in order to reduce its dependence on a very limited number of suppliers.

Department responsible: Department of Operational Support

Status: Under implementation

Priority: High

Initial target date: Fourth quarter of 2024

Revised target date: Second quarter of 2026

85. Please refer to number 37 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments. Additional time is required to complete the commercial evaluation, so the target date has been revised to the second quarter of 2026.

D. Recommendations contained in the report of the Board of Auditors for the 12-month period ended 30 June 2024 ([A/79/5 \(Vol. II\)](#), chap. II)

86. In paragraph 52 of its report, the Board recommended that the Administration strengthen due diligence controls on contract administration regarding performance assurances provided by contractors, in order to verify their authenticity.

Department responsible: Department of Operational Support
Status: Under implementation
Priority: High
Initial target date: Second quarter of 2025
Revised target date: Second quarter of 2026

87. Please refer to number 39 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

88. In paragraph 91 of its report, the Board recommended that the Administration either identify all its eligible retirees and their dependants who had accumulated after-service health insurance benefits and estimate their after-service health insurance benefits or liabilities as at the date for financial reporting in peacekeeping operations as reported in volume II, or, if not possible, document and formalize the use of the 17 per cent apportionment rate in determining the share of peacekeeping operations in total actual after-service health insurance costs.

Department responsible: Department of Management Strategy, Policy and Compliance
Status: Under implementation
Priority: High
Initial target date: First quarter of 2026
Revised target date: Second quarter of 2026

89. Please refer to number 40 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

90. In paragraph 102 of its report, the Board recommended that the Administration continue to document and monitor the after-service health insurance enrolment rate of eligible participants and their eligible dependants in order to improve the accuracy of the after-service health insurance liabilities valuation, by, among others, including the United Nations Staff Mutual Insurance Society against Sickness and Accident experience and the experience of longer periods under the United Nations Medical Insurance Plan.

Department responsible: Department of Management Strategy, Policy and Compliance
Status: Under implementation
Priority: High
Initial target date: First quarter of 2026
Revised target date: Second quarter of 2026

91. Please refer to number 41 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

92. In paragraph 148 of its report, the Board recommended that the Administration improve the documentation regarding the process for the creation of the scheduling of write-offs, in accordance with regulation 6.5 of the Financial Regulations and Rules of the United Nations, through a standard operating procedure.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: High

Initial target date: Fourth quarter of 2025

Revised target date: First quarter of 2026

93. Please refer to number 43 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

94. In paragraph 167 of its report, the Board recommended that the Administration prioritize and expedite the implementation of a cost-recovery dashboard in order to provide client-type categorization (at least for agencies, funds and programmes) and to strengthen internal controls over cost recovery, especially by providing, on a rolling basis, data linked with Umoja relating to receivables, net asset position, revenue and expenses by mission.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: High

Initial target date: Second quarter of 2025

Revised target date: Second quarter of 2026

95. Please refer to number 44 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

96. In paragraph 236 of its report, the Board recommended that the Administration consider either: (a) enhancing the disclosure in the notes to the financial statements by including the total number and value of fully depreciated assets still in use, and their percentage, compared with the total amount of property, plant and equipment, in a disaggregated manner by asset class and by mission; or (b) presenting that information to Member States in the context of the report of the Secretary-General on the overview of peacekeeping operations.

Department responsible: Department of Management Strategy, Policy and Compliance

Status: Under implementation

Priority: Medium

Initial target date: Fourth quarter of 2025

Revised target date: Fourth quarter of 2026

97. Please refer to number 46 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

98. In paragraph 344 of its report, the Board recommended that the Administration strengthen scenario-based planning and regular planning exercises, in particular for missions that operate in volatile environments, to ensure that missions can identify and respond to risks and be ready to adjust their postures as circumstances change.

Departments responsible: Department of Peace Operations and all peacekeeping missions

Status: Under implementation

Priority: High

Initial target date: Fourth quarter of 2026

Revised target date: No change

99. Please refer to number 52 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

100. In paragraph 362 of its report, the Board recommended that the Administration systematically include early transition planning in the mission planning to ensure readiness and promote proactivity, with due consideration given to specific mandates and contexts.

Departments responsible: Department of Peace Operations and all peacekeeping missions

Status: Under implementation

Priority: High

Initial target date: Fourth quarter of 2026

Revised target date: No change

101. Please refer to number 54 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

102. In paragraph 364 of its report, the Board recommended that the Administration finalize its transition preparedness tool in consultation with all stakeholders and ensure its dissemination in all peacekeeping operations, with regular follow-up from United Nations Headquarters on progress of the preparedness reviews.

Department responsible: Department of Operational Support

Status: Under implementation

Priority: High

Initial target date: Second quarter of 2026

Revised target date: No change

103. Please refer to number 56 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

104. In paragraph 427 of its report, the Board recommended that the Administration complete the implementation of the new ammunition module tool in accordance with the established road map.

Department responsible: Department of Operational Support
Status: Under implementation
Priority: High
Initial target date: Fourth quarter of 2026
Revised target date: Fourth quarter of 2027

105. By the end of 2026, the Administration plans to develop the third phase of the ammunition module in the Uniformed Capabilities Management System to provide comprehensive reporting and analytical capabilities, enabling consistent oversight and performance monitoring. In the fourth phase, the Administration will provide rates, claims and reimbursement functionalities resulting in effective management, risk reduction, data-driven decisions, increased compliance and accountability by the end of 2027.

106. In paragraph 428 of its report, the Board recommended that the Administration clearly define the responsibilities associated with the new ammunition management module at the local level (peacekeeping operation) and at the central level (Headquarters) in terms of the second line of defence in a dedicated standard operating procedure once the project is completed.

Department responsible: Department of Operational Support
Status: Under implementation
Priority: Medium
Initial target date: First quarter of 2027
Revised target date: No change

107. Please refer to number 62 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

108. In paragraph 451 of its report, the Board recommended that the Administration include environmental considerations in core category strategies to mitigate environmental risks.

Department responsible: Department of Operational Support
Status: Under implementation
Priority: High
Initial target date: Fourth quarter of 2025
Revised target date: Fourth quarter of 2026

109. Please refer to number 64 of annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments. The Administration has taken significant steps to mainstream environmental considerations into core categories with a view to maximizing impact, and achievements such as the turnkey renewable energy contract demonstrate steps forward. However, the liquidity situation and the evolving peacekeeping landscape, through upcoming mission closures, startup activities for Haiti, contingency plans and the UN80 Initiative, have led to the reprioritization of resources to focus on critical operational support. Over the coming months, the Office of Supply Chain Management will aim to incorporate environmental considerations into its core categories to the extent practical and commensurate with the requirements of its client entities.

110. In paragraph 455 of its report, the Board recommended that the Secretariat propose solutions to Member States on the accumulation of waste in troop- and police-contributing countries' camps.

Departments responsible: Department of Operational Support and
Department of Peace Operations

Status: Under implementation

Priority: High

Initial target date: Fourth quarter of 2026

Revised target date: No change

111. Please refer to number 65 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

112. In paragraph 462 of its report, the Board recommended that the Administration sustain the Rapid Environment and Climate Technical Assistance team project with the aim of concluding a longer-term United Nations-United Nations Office for Project Services (UNOPS) agreement with optional extensions.

Department responsible: Department of Operational Support

Status: Under implementation

Priority: Medium

Initial target date: Third quarter of 2026

Revised target date: No change

113. Please refer to number 66 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

114. In paragraph 466 of its report, the Board recommended that the Administration review applicable standard unit requirements to consider, when relevant, the reduced energy production requirements following an evaluation by specialized electrical engineers.

Departments responsible: Department of Peace Operations and Department
of Operational Support

Status: Under implementation

Priority: High

Initial target date: Fourth quarter of 2026

Revised target date: Second quarter of 2027

115. The Department of Operational Support will initiate a project, by the third quarter of 2026, to rationalize the holding of contingent-owned equipment generators across all deployed missions. In line with the Contingent-Owned Equipment Manual, the Department will review generator requirements and address unnecessary overcapacity. This initiative will directly support the review of standard unit requirements in accordance with the recommendation and contribute to a cross-cutting approach to mitigating energy overproduction within contingents in accordance with the recommendation in paragraph 175 of the current report of the Board ([A/80/5 \(Vol. II\)](#)).

116. In paragraph 471 of its report, the Board recommended that the Administration continue to include in future solicitations hybrid and carbon-neutral vehicles in order to allow them to expand their use in missions through improved adaptation to the local constraints and needs.

Department responsible: Department of Operational Support
Status: Under implementation
Priority: Medium
Initial target date: Second quarter of 2025
Revised target date: First quarter of 2027

117. Please refer to number 68 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

118. In paragraph 503 of its report, the Board recommended that the Administration, when a mission closure occurs, seek predictable funding resources for mechanisms that ensure engagement to address residual peace challenges.

Departments responsible: Development Coordination Office, Department of Peace Operations, Department of Political and Peacebuilding Affairs and Department of Management Strategy, Policy and Compliance
Status: Under implementation
Priority: Medium
Initial target date: Fourth quarter of 2026
Revised target date: No change

119. Please refer to number 69 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

120. In paragraph 551 of its report, the Board recommended that the Administration ensure the geographical co-location of integrated teams, as guided and supported by Headquarters-level joint mechanisms, in peacekeeping settings, wherever possible.

Departments responsible: Department of Peace Operations, Department of Political and Peacebuilding Affairs, MINUSCA, MONUSCO and UNMISS
Status: Under implementation
Priority: High
Initial target date: Fourth quarter of 2026
Revised target date: No change

121. Please refer to number 71 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.

122. In paragraph 604 of its report, the Board recommended that the Secretariat foster, on the basis of the experience in the Democratic Republic of the Congo and in other transition settings, and where appropriate, the signing of memorandums of understanding with the agencies, funds and programmes to

frame and strengthen relationships during transition periods, and develop the expertise of United Nations staff by incorporating transition knowledge and, if possible, create a pool of transition specialists, to deploy in support of mission and United Nations country team planning to ensure effective transitions.

Departments responsible: Department of Peace Operations, Development Coordination Office and Department of Political and Peacebuilding Affairs

Status: Under implementation

Priority: High

Initial target date: Fourth quarter of 2026

Revised target date: No change

123. Please refer to number 72 in annex II to the Board's report [A/80/5 \(Vol. II\)](#) for the Administration's comments.
